on the Borderline Anoma Pieris, 2019-06-25 *Architecture on the Borderline* interrogates space and territory in a turbulent present where nation state borders are porous to a few but impermeable to many It asks how these uneven and conflicted social realities are embodied in the physical and material conditions imagined produced or experienced through architecture and urbanism Drawing on historical global examples this rich collection of essays illustrates how empires nations and cities expand their frontiers and contest boundaries but equally how borderline identities of people and places influence or expose these processes Empirical chapters covering Central Asia the Asia Pacific region the American continent Europe and the Middle East offer multiple critical insights into the ways in which our spatial imagination is contingent on border thinking on

the ways of being and navigating frontiers boundaries and margins the three themes used to organise their content The underlying premise of the book is that sensitisation to border conditions can alter our understanding of the static physical spaces that service political or cultural ideologies and that the view from the periphery opens up new ways of understanding sovereignty In exploring these various spaces and their transformative subjectivities this book also reveals the unrelenting precarity of contesting and living on the margins and related spaces and discourses that are neglected or suppressed In Flux Alex Nichols,Urszula Dawkins,2022-12-01 In Flux Trans and Gender Diverse Reflections and Imaginings is a community anthology by trans and gender diverse TGD writers Both embracing and defying familiar genres the contributors share experiences grapple with ideas play with language and invent new worlds bringing to the task their skills humour and passion In the context of increased TGD visibility and mainstream acceptance In Flux is both a celebration and an intervention Arising from collaboration inquiry and experiment it continues the work of trans activists in making spaces for new conversations Spanning both small pleasures and big questions In Flux is a bright bold and heartfelt addition to the written history of trans and gender diverse folks *Phantoms of Bribie* Ian Mackay,2016-01-05 Phantoms of Bribie is a highly readable blend of an engaging yarn and a fascinating portrayal of operational service in Vietnam as an infantry company commander leading some 100 fine young national service and regular soldiers in close quarter jungle fighting Ian s training within the SAS and operational service in Malaya served him well in Vietnam where he was a company commander of Bravo Company 6 RAR During Operation Bribie he lead his outnumbered company s desperate bayonet charge followed by close quarter fighting against a well dug in and determined enemy This action sharply illustrated the courage the battle discipline and the spirit of the well trained Australian combat infantryman On leaving the Army Ian excelled in the Australian and international business worlds A multi talented sportsman Rugby Union remained his passion in which he performed to international level Ian outlines the difference between leadership and management using many interesting and often humorous examples Both qualities are vital for successful senior operatives in both civilian and military organisations Most importantly as Ian explains a good leader must also be an effective decision maker and a good communicator This book is a tribute to Ian Mackay s qualities as a battlefield commander an international sportsman a successful businessman and an entertaining author **New Perceptions of the Vietnam War** Nathalie Huynh Chau Nguyen,2014-12-03 The effects of the War outside present day Vietnam are ongoing Substantial Vietnamese communities in countries that participated in the conflict are contributing to renewed interpretations of it This collection of new essays explores changes in perceptions of the war and the Vietnamese diaspora examining history politics biography and literature with Vietnamese American Australian and French scholars providing new insights Twelve essays cover South Vietnamese leadership and policies women and civilians veterans overseas smaller allies in the war Australia accounts by U S Australian and South Vietnamese servicemen as well as those of Indigenous soldiers from the U S and Australia memorials and commemorations and the legacy of war on

individual lives and government policy **My Vietnam War** Dave Morgan,2014-08-05 My Vietnam War is Dave Morgan's story. A typical 20-year-old he was forced into extraordinary circumstances in Vietnam. Far from his carefree youth, the Vietnam War would expose Dave to an atmosphere of ever-present danger and sheer terror that would impact him forever. His return to a divided Australia would isolate him further. During his service, Dave wrote home to his mother from Vietnam, tracking the days and the events. In 1992, after his mother passed away, he found all of his letters with his own recollections and diary entries and the short stories of seven other veterans to capture the unbelievable danger and horror that these young men experienced in Vietnam. He also describes how Vietnam established life-long feelings of intense loyalty, trust, and mateship between the men that served there. Dave's story focuses on his time as a soldier and his return, psychologically exhausted, to a divided nation.

Changing Altitudes Big Sky Publishing,2024-10-02 In the early years of the Second World War, Australian women began lobbying to contribute to the nation's wartime effort. From 1940, women were signing up to serve in the Royal Australian Nursing Service, and in 1941, an Auxiliary arm of the Royal Australian Air Force was established, allowing women to join on a temporary basis to enhance the organisation's ability to fight. In the decades since, Australian women have continued to contribute significantly to the operational capability of the world's second oldest air force. They have done so regardless of the social norms of the time or the perceived limits of their abilities, always showing their detractors that they are capable of great things. *Changing Altitudes: The Stories of Australian Air Force Women* includes the personal stories of some of these women, recounting in their own words their experiences while proudly wearing the uniform of the Service. This is the second volume of the Royal Australian Air Force Oral Histories series, aiming to capture the one capability that the RAAF cannot operate without: its people.

Commonwealth Of Australia Gazette Australia,1962 **Bless Me, Father ?** Robert A. Zammit,2014-01-17 A young Italian boy's broken heart leads him into the heart of the Catholic Church in 1950s Australia, but there he begins a journey of betrayal, murder, and damaged faith.

Defending Country Noah Riseman, Richard Trembath,2016-03-23 The role of Aboriginal servicemen and women has only recently been brought to the forefront of conversation about Australia's war history. This important book makes a key contribution to recording the role played by Indigenous Australians in our recent military history. Written by two respected historians and based on a substantial number of interviews with Indigenous war veterans who have hitherto been without a voice, it combines the best of social and military history in one book. This will be the first book to focus on this previously neglected part of Australian social history.

Highlands to Deserts Michael Tyquin,2018-09-05 *Highlands to Deserts* is the story of a small Australian Army engineering unit determined to use more than bricks and bridges to make a difference, not only to Australian Army units but to indigenous communities both within Australia and overseas. The 19th Chief Engineer Works was raised in 1963 as the Army's premier engineering consultant, its purpose to plan, design, and oversee the construction of barracks and training facilities in the New Guinea highlands. However, the men of the unit demonstrated vision far beyond their limited

brief reaching into local communities and building relationships with tribesmen that were to prove strong and enduring From the wilds of New Guinea the unit extended its reach to the remote communities of outback Australia designing infrastructure that reflected local needs The engineers engaged with indigenous townships cementing relationships as they planned essential infrastructure their sole aim to make a difference to local lives The unit's military remit ranged from designing bridges and wharfs to training facilities and even churches The story of the 19th Chief Engineer Works its people and its achievements deserves to be far better known and Highlands to Deserts provides rich portrayals of the characters and the trials and tribulations that signpost their history These are men and women who have invested in communities large and small near and far seeking to improve the daily lives of soldiers and indigenous peoples Having worked quietly in the background for 55 years it is now time to tell the story of the 19th Chief Engineer Works *Psychopedia*

Until one day he is contacted by an ASIO agent he knows from his police days. Following the September 11 attacks in the United States, the Australian government secretly decides to create a new covert security service dedicated to anti-terrorism matters.
