- 6) Hailie is writing a psychology research paper. She has collected research from the past three decades, which her professor says is fine. Answer: C

- 7) Kathy is uncomfortable with some of the things she's learning in her science classes, and she becomes convinced that many scientists are just buying in to the theories they've been taught and perpetuating inaccurate information in their own research. In reality,

 - B) theories are modified only if someone with a great deal of research experience suggests they should be.
 - C) theories are tested, modified, and then tested again by additional research; if they're inaccurate, they're discarded.
