Anderson,2024-10-30 First Published in 1971 *The Festivals of Nepal* describes the most important festivals from the country which have been arranged according to the ancient Nepalese calendar beginning with the New Year in mid April The author provides moreover a brief introductory sketch of Nepalese geography history and religion to give background to what follows When Mary Anderson began her five year residence in Kathmandu as the wife of a diplomat she attended the frequent Nepalese festivals up and down the Valley because they were mysterious colourful and great fun But soon she became more deeply absorbed in the meaning of these ancient activities as she grew quickly aware that to the Nepalese themselves the ancient processions and rituals were of great importance Somewhere almost every day there seems to be in Nepal a festival of some kind but now that this hitherto secret land has been opened up to tourists and foreign influences much of this historic pageantry may well be lost The modernization of Nepalese society is certain to have its effects but when these artless celebrations become the goal of spectators from outside they will also lose its spontaneity Mary Anderson was determined to record as many of them as she could explaining their mythological religious and historical backgrounds and relating some of the wealth of legends and folk tales that surround them This is an interesting read for students of sociology of culture South Asian studies South Asian religion and culture and Hindu religion **Supergods** Grant Morrison,2012-06-26 NATIONAL BESTSELLER What Masked Vigilantes Miraculous Mutants and a Sun God from Smallville Can Teach Us About Being Human Superman Batman Wonder Woman Iron Man and the X Men the list of names as familiar as our own They are on our movie and television screens in our videogames and in our dreams But what are they trying to tell us For Grant Morrison one of the most acclaimed writers in the world of comics these heroes are powerful archetypes who reflect and predict the course of human existence Through them we tell the story of ourselves In this exhilarating work of a lifetime Morrison draws on art archetypes and their own astonishing journeys through this shadow universe to provide the first true history of our great modern myth the superhero Now with a new Afterword *Bleeding Mountains of Nepal* Aditya Man Shrestha,2001 Whether it is politics journalism or literature the most talked about topic today is undoubtedly corruption This book deals with it throughout Each page of *Bleeding Mountains of Nepal* is a ghastly tale of how the country is run by people whose unsaturated greed and avarice for power and perks and their dereliction of duty may be unmatched by anyone anywhere in the world The book is a verification of how national resources funds and revenue foreign loans and assistance are pillaged pilfered plundered abducted swindled embezzled robbed looted and predated by the very bottom to the top level in the

government machinery and also by those outside the government The whole book is a document of how the country is being fleeced milked and wrenched at all times by the insiders outsiders donor agencies and the NGOs It speaks of Nepal and its teeming millions squirming below the poverty line forever exploited It is a story of Nepal's failed development of the last fifty years the tears behind the smile the smile that does not reach the eyes It is particularly helpful to those who want to write study and research on corruption and mismanagement in Nepal

Dāphā: Sacred Singing in a South Asian City Richard Widdess, 2016-12-05 Dāphā or dāphā bhajan is a genre of Hindu Buddhist devotional singing performed by male non professional musicians of the farmer and other castes belonging to the Newar ethnic group in the towns and villages of the Kathmandu Valley Nepal The songs their texts and their characteristic responsorial performance style represent an extension of pan South Asian traditions of raga and tāla based devotional song but at the same time embody distinctive characteristics of Newar culture This culture is of unique importance as an urban South Asian society in which many traditional models survive into the modern age There are few book length studies of non classical vocal music in South Asia and none of dāphā Richard Widdess describes the music and musical practices of dāphā accounts for their historical origins and later transformations investigates links with other South Asian traditions and describes a cultural world in which music is an integral part of everyday social and religious life The book focusses particularly on the musical system and structures of dāphā but aims to integrate their analysis with that of the cultural and historical context of the music in order to address the question of what music means in a traditional South Asian society

The Origins of the World's Mythologies E.J. Michael Witzel, 2012-12-13 This remarkable book is the most ambitious work on mythology since that of the renowned Mircea Eliade who all but single handedly invented the modern study of myth and religion Focusing on the oldest available texts buttressed by data from archeology comparative linguistics and human population genetics Michael Witzel reconstructs a single original African source for our collective myths dating back some 100 000 years Identifying features shared by this Out of Africa mythology and its northern Eurasian offshoots Witzel suggests that these common myths recounted by the communities of the African Eve are the earliest evidence of ancient spirituality Moreover these common features Witzel shows survive today in all major religions Witzel's book is an intellectual hand grenade that will doubtless generate considerable excitement and consternation in the scholarly community Indeed everyone interested in mythology will want to grapple with Witzel's

extraordinary hypothesis about the spirituality of our common ancestors and to understand what it tells us about our modern cultures and the way they are linked at the deepest level

EXCOMMUNICATED IN THE NAME OF GOD Ruben Ygua, 2025-04-10 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day which for now covers from 1789 to 1946 divided into five

collections **Pilgrimage Tourism in Nepal** Yajna Raj Satyal, 2002 *Dirty, Sacred Rivers* Cheryl Colopy, 2012-10-01

Dirty Sacred Rivers explores South Asia's increasingly urgent water crisis taking readers on a journey through North India, Nepal and Bangladesh from the Himalaya to the Bay of Bengal. The book shows how rivers traditionally revered by the people of the Indian subcontinent have in recent decades deteriorated dramatically due to economic progress and gross mismanagement. Dams and ill advised embankments strangle the Ganges and its sacred tributaries. Rivers have become sewage channels for a burgeoning population. To tell the story of this enormous river basin, environmental journalist Cheryl Colopy treks to high mountain glaciers with hydrologists, bumps around the rough embankments of India's poorest state in a jeep with social workers and takes a boat excursion through the Sundarbans, the mangrove forests at the end of the Ganges watershed. She lingers in key places and hot spots in the debate over water: the megacity Delhi, a paradigm of water mismanagement; Bihar, India's poorest, most crime-ridden state, thanks largely to the blunders of engineers who tried to tame powerful Himalayan rivers with embankments but instead created annual floods; and Kathmandu, the home of one of the most elegant and ancient traditional water systems on the subcontinent, now the site of a water development boondoggle. Colopy's vivid first person narrative brings exotic places and complex issues to life, introducing the reader to a memorable cast of characters ranging from the most humble members of South Asian society to engineers and former ministers. Here we find real life heroes bucking current trends, trying to find rational ways to manage rivers and water. They are reviving ingenious methods of water management that thrived for centuries in South Asia and may point the way to water sustainability and healthy rivers.
