Verification, Model Checking, and Abstract Interpretation Fritz Henglein, Sharon Shoham, Yakir Vizel, 2021-01-11 This book constitutes the proceedings of the 22nd International Conference on Verification Model Checking and Abstract Interpretation VMCAI 2021 which was held virtually during January 17 19 2021 The conference was planned to take place in Copenhagen Denmark but changed to an online event due to the COVID 19 pandemic The 23 papers presented in this volume were carefully reviewed from 48 submissions VMCAI provides a forum for researchers working on verification model checking and abstract interpretation and facilitates interaction cross fertilization and advancement of hybrid methods that combine these and related areas The papers presented in this volume were organized in the following topical sections hyperproperties and infinite state systems concurrent and distributed systems checking synthesis and repair applications and decision procedures

Kansas City's Montgall Avenue Margie Carr, 2023-06-12 A few blocks southeast of the famed intersection of 18th and Vine in Kansas City Missouri just a stone s throw from Charlie Parker s old stomping grounds and the current home of the vaulted American Jazz Museum and Negro Leagues Baseball Museum sits Montgall Avenue This single block was home to some of the most important and influential leaders the city has ever known Margie Carr s Kansas City s Montgall Avenue Black Leaders and the Street They Called Home is the extraordinary century old history of one city block whose residents shaped the changing status of Black people in Kansas City and built the social and economic institutions that supported the city s Black community during the first half of the twentieth century The community included among others Chester Franklin founder of the city s Black newspaper The Call Lucile Bluford a University of Kansas alumna who worked at The Call for sixty nine years and Dr John Edward Perry founder of Wheatley Provident Hospital Kansas City s first hospital for Black people The principal and four teachers from Lincoln High School Kanas City s only high school for African American students also lived on the block While introducing the reader to the remarkable individuals who lived on Montgall Avenue Carr also uses this neighborhood as a microcosm of the changing nature of discrimination in twentieth century America The city s white leadership had little interest in supporting the Black community and instead used its resources to separate and isolate them The state of Missouri enforced segregation statues until the 1960s and the federal government created housing policies that erased any assets Black homeowners accumulated robbing them of their ability to transfer that wealth to the next generation Today the 2400 block of Montgall Avenue is situated in one of the poorest neighborhoods in Kansas City The attitudes and policies that contributed to the neighborhood s changing environment paint a more complete and disturbing picture of the role that race continues to play in America s story

Making Education Work for the Poor William Elliott,Melinda Lewis,2018-07-03 Making Education Work for the Poor identifies wealth inequality as the gravest threat to the endangered American Dream Though studies have clearly illustrated that education is the primary path to upward mobility today educational outcomes are more directly determined by wealth than innate ability and exerted effort This accounting directly contradicts Americans understanding of the promise the American Dream is supposed to offer a level playing field and a path towards a more profitable future In this book the authors share their own stories of their journeys through the unequal U S education system One started from relative privilege and had her way to prosperity paved and her individual efforts augmented by institutional and structural support The other grew up in poverty and had to fight against currents to complete

higher education only to find his ability to profit from that degree compromised by student debt To directly counter wealth inequality and make education the great equalizer that Americans believe it to be this book calls for a revolution in financial aid policy from debt dependence to asset empowerment The book examines the evidence base supporting Children s Savings Accounts including CSAs demonstrated potential to improve children s outcomes all along the opportunity pipeline early education school achievement college access and completion and post college financial health It then outlines a policy that builds on CSAs to incorporate a sizable progressive wealth transfer This new policy Opportunity Investment Accounts is framed as the cornerstone of the wealth building agenda the nation needs in order to salvage the American Dream Written by leading CSA researchers the book includes overviews of the major children s savings legislation proposed in Congress and the key features of prominent CSA programs in operation around the country today as well as new qualitative and quantitative CSA research The book ultimately presents a critical development of the theories that together explain how universal progressive asset based education financing could make education work equitably for all American children

The Selected Papers of Elizabeth Cady Stanton and Susan B. Anthony Ann D. Gordon, 2013-01-10 The hush of the title comes suddenly when first Elizabeth Cady Stanton dies on October 26 1902 and three years later Susan B Anthony dies on March 13 1906 It is sudden because Stanton despite near blindness and immobility wrote so intently right to the end that editors had supplies of her articles on hand to publish several months after her death It is sudden because Anthony at the age of eighty five set off for one more transcontinental trip telling a friend on the Pacific Coast it will be just as well if I come to the end on the cars or anywhere as to be at home Volume VI of this extraordinary series of selected papers is inescapably about endings death and silence But death happens here to women still in the fight An Awful Hush is about reformers trained in the school of anti slavery trying to practice their craft in the age of Jim Crow and a new American Empire It recounts new challenges to an aristocracy of sex whether among the bishops of the Episcopal church the voters of California or the trustees of the University of Rochester And it sends last messages about woman suffrage As Stanton wrote to Theodore Roosevelt on the day before she died Surely there is no greater monopoly than that of all men in denying to all women a voice in the laws they are compelled to obey With the publication of Volume VI this series is now complete

Netspaces Katharine S. Willis, 2017-05-15 The focus of this book is on understanding and explaining the way that our increasingly networked world impacts on the legibility of cities that is how we experience and inhabit urban space It reflects on the nature of the spatial effects of the networked and mediated world from mobile phones and satnavs to data centres and wifi nodes and discusses how these change the very nature of urban space It proposes that netspaces are the spaces that emerge at the interchange between the built world and the space of the network It aims to be a timely volume for both architectural urban design and media practitioners in understanding and working with the fundamental changes in built space due to the ubiquity of networks and media This book argues that there needs to be a much better understanding of how networks affect the way we inhabit urban space The volume defines five characteristics of netspaces and defines in detail the way that the spatial form of the city is affected by changing practices of networked world It draws on theoretical approaches and contextualises the discussion with empirical case studies to illustrate the changes taking place in urban space This readable and engaging text will be a valuable resource for architects urban designers planners and sociologists for understanding how of networks and media are creating significant changes to urban space and the resulting implications for the design of cities

Old Testament Narratives and Speech Act Theory Steven T. Mann, 2025-01-15 Old Testament Narratives and Speech Act Theory explores the creative power of words in Old Testament narratives While the most famous example of

this phenomenon might involve divine utterances such as Let there be light Gen 1 1 Steven T Mann argues that human characters can also create worlds with their words in an attempt to influence the imaginations and therefore actions of their listeners This study focuses on the performative nature of speeches that are found in several key Old Testament narratives including Genesis 4 1 26 18 16 33 Exodus 1 8 22 32 1 14 Numbers 13 14 2 Samuel 7 1 17 Amos 7 1 6 and Jonah 2 1 10 4 2 3 Within these narratives characters use their words to create competing worlds that clash as they attempt to advance their own agendas The storyteller s portrayal of these narrative worlds invites the audience to incorporate viewpoints of certain characters into their own world

Seward's Law Peter Charles Hoffer, 2023-01-15 In *Seward's Law* Peter Charles Hoffer argues that William H Seward s legal practice in Auburn New York informed his theory of relational rights a theory that demonstrated how the country could end slavery and establish a practical form of justice This theory Hoffer demonstrates had ties to Seward s career as a country lawyer Despite his rise to prominence and indeed preeminence as a US secretary of state Seward s country lawyer mentality endured throughout his life as evinced in his personal attitudes and professional conduct Relational rights identified and termed here for the first time by Hoffer are communal and reciprocal what everyone owed to every other member of their community Such rights are at the center of a jurisprudential outlook that arises directly from living in a village Though Seward was limited by the Victorian mores and the racist presumptions of his day the concept of relational rights that animated him was the natural antithesis to the theories and practices of slavery In the legal regime underpinning the institution masters owed nothing to their bondmen and women while those enslaved unconditionally owed life and labor to their masters The irrepressible conflict was for Seward jurisprudential as well as moral and political Hoffer s leading assumption in *Seward's Law* is that a lifetime spent as a lawyer influences how a person responds to everyday challenges Seward remained a country lawyer at heart and that fact defined the course of his political career

Social Consequences of Testing for Language-minoritized Bilinguals in the United States Jamie L.

Schissel, 2019-03-07 This book constructs a historical narrative to examine the social consequences of testing faced by language minoritized bilinguals in the United States These consequences are understood with respect to what language minoritized bilinguals faced when they have sought 1 access to civic participation 2 entry into the United States 3 education in K 12 Schools and 4 higher education opportunities By centering the test taker perspective with a use oriented testing approach the historical narrative describes the cumulative nature of these consequences for this community of individuals which demonstrates how the mechanism of testing often in conjunction with other structural and political forces has contributed to the historic systemic marginalization of language minoritized bilinguals in the United States By viewing these experiences with respect to consequential validity the book poses questions to those involved in testing to not only acknowledge these histories but to actively and explicitly incorporate efforts to dismantle these legacies of discrimination The conclusions drawn from the historical analysis add an important perspective for educators and researchers concerned

with inequities in the testing of language minoritized bilinguals
