Lawrence Muganga Ph.D.,2022-08-22 Today s universities fail students leaving them stranded in an alien world that differs markedly from the ivory tower institution that ostensibly molded them for the future The Authentic University proposes to overcome the manifold shortcomings of the contemporary postsecondary school by offering an innovative education that corresponds to the realities of the modern era This university blends three distinct concepts of student centered education to provide students with a personalized learning experience that develops distinct skills and competencies required by today s employers Students can save time money and effort while learning the information and applications that they want and need Contained within the covers of this groundbreaking book lies a thorough description of everything that educational stakeholders must know about the Authentic University including supporting literature and practical models alongside strategies for planning and implementation The world has passed the university by and will not wait for education to keep pace with its ever evolving information and communication technology situated in an increasingly entrepreneurial economy We as educational stakeholders must meet the challenge of change in an urgent way The first step toward bringing the university into the modern era begins with this book the manual for a radically new type of education termed the Authentic University *Institutional Research in South African Higher Education* Jan Botha,Nicole J Muller,2016-11-01 The book provides a thorough overview of Institutional Research IR i e applied higher education research undertaken within universities in South Africa It is a collection of essays focusing on the character and institutional setting of IR how IR is embedded into the mechanisms of steering shaping and reforming higher education and what the major results were of IR in select thematic areas The book is a valuable resource for higher education researchers and social researchers in South Africa interested in higher education It also deserves to be read by practitioners and policymakers in the field of higher education in South Africa It serves as an interesting case study for higher education researchers all over the world *Handbook of Research on Heritage Management and Preservation* Ngulube, Patrick,2018-02-02 Archives museums and libraries are pivotal to the management and preservation of any society s heritage Heritage assets should be systematically managed by

putting in place proper policies maintenance procedures security and risks measures and retrieval and preservation plans

The Handbook of Research on Heritage Management and Preservation is a critical scholarly resource that examines different aspects of heritage management and preservation ranging from theories that underline the field areas of convergence and divergence in the field infrastructure and the policy framework that governs the field and the influence of the changing landscape on practice Featuring coverage on a broad range of topics such as community involvement records legislation and collection development this book is geared towards academicians researchers and students seeking current research on heritage management and preservation *Academic Development and its Practitioners* Gert Young,2022-03-03 The chapters in this collection are reflections of the intellectual emotional and day to day experiences of professional staff engaged in academic development They provide the reader with glimpses of how academic developers at one South African university are continuously shaping their identities through sense making processes how they creatively apply different theoretical approaches to both analysing and informing their work and what their views are of the practical and systemic challenges facing higher education As such this book expands on as well as challenges the dominant ways of thinking about academic development and academic developers in higher education *Lived Religion and the Politics of (In)Tolerance* R. Ruard Ganzevoort,Srdjan Sremac,2017-03-08 This volume explores the ways in which lived religion encourages and contributes to conflicts as well as fosters tolerance in the interlocking rural urban and virtual social spheres Through ten case studies with vast geographical and religious variation the contributors address some of the shortcomings in analyses of the relationship between religion and in tolerance and offers a theoretically and empirically more nuanced understanding of the micro politics of in tolerance and the roles of lived religion in it The book argues that in tolerance and its connection to religion cannot be fully understood unless analyzed from below which means that the focus needs to be not only on public institutions or religio political spaces but also on in tolerance of ordinary people and their performativity practices and interests in non institutionalized spaces This showcases the ambiguous interconnectedness of lived religion and in tolerance Lived Religion and the Politics of In Tolerance will be of interest to students and scholars interested in lived religion the relationship between politics and religion and those working in cross cultural dialogue and through an anti racism and anti violence lens **Empowering Novice Academics for Student Success** Dr Johann Hugo,2021-04-26 This book is essential for academics that enter the field of higher education and training as it focuses on preparing teachers and trainers to respond appropriately to student success challenges Student success is a burning issue both globally and locally While student achievement is determined by a combination of factors teachers and their teaching practices do matter Higher education teachers are expected to fulfil different roles at different times such as planning for curriculum implementation mentorship and coaching facilitating learning resource development and student assessment Against this background the primary purpose of Empowering novice academics for student success Wearing different hats is building the capacity of

novice teachers and trainers to play an influential role in increasing student success throughout

The Deritualization of Death Charles Lynn Gibson, 2019-10-15 The problematic field of investigation for this study was for the care of bereaved human beings in the context of significant cultural shifts now shaping the twenty first century Deritualization was identified as a significant interdisciplinary concern that contributes to potential distress in processes of grieving The objective of the research was the development of a practical theology of compassionate caregiving for the bereaved with deference to the problem of deritualization The theoretical framework was guided by the Oxford Interdisciplinary Research model and the Loyola Institute of Ministries model of practical theology The study was designed for applied research for funeral directors and vocational pastors utilizing qualitative research methods Hermeneutical and empirical components addressed six research questions through two domains of inquiry disciplinary perspectives and educational dynamics of bereavement caregiving Using the method of hermeneutics to critically evaluate the first two research questions three disciplinary fields of knowledge were examined and integrated from the perspective of pastoral care funeral service bereavement psychology and practical theology Each discipline individually converged upon meaningful caregiving meaning reconstruction and meaning reframing as significant modes of bereavement care Using ethnographic semi structured interviews to critically evaluate the remaining four research questions data were collected from a Christian university and a mortuary college The interview questionnaire included twenty five main questions organized in four parts Philosophy of Education Hermeneutics of Bereaved Families Care of Bereaved Families and Encounter of Bereaved Families The study utilized two cycles of qualitative coding techniques to report the findings of each participating school A hybrid form of in vivo and holistic coding as well as a second cycle of pattern coding distilled the interview responses into actionable statements that reinforced bereavement caregiving By synthesizing all of the findings a compelling case was made for a paradigm of comforting presence supported by principles from a Louwian perspective of practical theology including theological anthropology promissiotherapy bipolarity and hermeneutics The study connected a philosophy of meaning reframing and a paradigm of comforting presence to a meta theoretical framework within a narrative approach to care The research elucidated an interdisciplinary understanding that contributed toward a compassionate practical theology of caregiving for the bereaved

Emergency Medicine, Trauma and Disaster Management Emmanouil Pikoulis, Jay Doucet, 2021-06-12 The number of natural and man made disasters has risen dramatically over the last decade Natural disasters industrial accidents and terrorist attacks represent major incidents often involving multiple casualties In such cases health professionals face multiple challenges because the type of medical care required differs from what is taught and provided in their everyday hospital duties The aim of this book is to inform and prepare healthcare professionals for the challenges posed by major incidents so that they can act effectively in medical teams sent on humanitarian missions or into conflict zones It offers a holistic and horizontal approach covering all stages of the disaster management cycle The book is divided into 5 sections section 1 prehospital emergency services section ii hospital

response section iii management of incidents section iv after the disaster and section v evaluation ethical issues education and research Healthcare providers will find essential information on the special medical considerations in both prehospital and hospital disaster settings medical management of disaster response recovery mitigation and preparedness The book offers an interdisciplinary and interprofessional approach and was written by prominent researchers and experienced practitioners

Decent Aid David Mutemwa, 2025-07-25 This book Decent Aid An Introduction to Ethics in Philanthropy by David Mutemwa is a tour de force in the realm of philanthropic ethics research as it invites scholars practitioners and policymakers alike to engage in thoughtful dialogue on the ethical imperatives that should guide philanthropic strategies in developing regions particularly in Africa At its apex it contributes toward making aid provision an ethical matter as the author proposes a model for ethical evaluation of philanthropic strategies from an interdisciplinary perspective comprising social work common law and practical theology Besides its significance in the current field of discourse and research this book also exposes the global influence on African

regions exerted through some so called international charitable or non governmental organizations NGOs The author employs a combination of Western theories and methodological approaches and traditional African philosophy making it possible to understand the ethical dimensions of philanthropy both in an African context and from a Western perspective This will help charitable organizations to avoid implementing strategies that could be unethical from the local perspective a critical aspect for both local communities and international organizations as it guides them in the best practices to adopt while implementing their projects in African contexts

Environmental Resilience Percy Toriro, Innocent

Chirisa, 2021-05-21 This book discusses the production distribution regulatory and management frameworks that affect food in urban settings It plugs a gap in knowledge especially in the sub Saharan Africa region where food despite its critical importance has been ignored as a determinant of success in the planning and management of cities and towns The various chapters in the book demonstrate how urban populations in Zimbabwe and elsewhere have often devised ways to produce own food to supplement on their incomes Food is produced largely by way of urban agriculture or imported from the countryside and sold in both formal and informal stores and stalls The book shows how in spite of the important space food occupies in the lives of all city residents the planning and regulatory framework does not facilitate the better performance of food systems

Knowledge Production and Contradictory Functions in African Higher Education Nico Cloete, Peter

Maassen, 2015-03-01 The dominant global discourse in higher education now focuses on world class universities inevitably located predominantly in North America Europe and increasingly East Asia The rest of the world including Africa is left to play catch up But that discourse should focus rather on the tensions even contradictions between excellence and engagement with which all universities must grapple Here the African experience has much to offer the high participation and generously resourced systems of the so called developed world This book offers a critical review of that experience and so makes a major contribution to our understanding of higher education
