The International Handbook of Parental Alienation Syndrome: Conceptual, Clinical, and Legal Considerations features clinical, legal, and research perspectives from 32 contributors representing eight countries, building on the work of the late Dr. Richard Gardner, a pioneer in the theory, practice, diagnosis, and treatment of Parental Alienation Syndrome (PAS). This unique book addresses the effects of PAS on parents and children, discusses issues surrounding reconciliation between parent and alienated child, and includes material published for the first time on incidence, gender, and false allegations of abuse in PAS. Content highlights examine PAS and the roles of family members, the criminal justice system, and the need for public awareness and policymakers to respond to PAS. Descriptive statistics on 84 cases are given, and the factors affecting reconciliation between the child and target parent are listed. The mild, moderate, and severe categories of PAS are explored, and the psychological consequences of PAS indoctrination for adult children of divorce and the effects of alienation on parents are researched. The role of medical reports in the development of PAS, sexual abuse allegations, and future predictions on the fate of PAS children are many of the clinical considerations in this book. The legal issues concern PAS in American law, criticisms of PAS in courts of law, protecting the fundamental rights of children in families, family law reform, international PAS abductions, and the legal requirements of experts giving evidence to courts. The impact and implications of PAS are immense, and no other single source provides the depth and breadth of coverage of the topic than the clinical and forensic chapters in this book.
