

The New 6100 Series ... Power with flexibility

The 6100 Series is a new range of "modular" high performance tractors from Massey Ferguson. The modular design enables variability in the transmission, PTO and hydraulics. So each model in the range can be specified to meet the demands of either general or very specific applications, ensuring the most cost-effective solution to your business needs.

Existing features include a superb new 6.6 litre 6 cylinder engine complementing the high performance "Dynasafe" 6 cylinder unit, new length shortened clutch, the polished/bore/diff transmission, electro-hydraulic shuttle, a new optional Dynasafe with print out capability and a 10" steel 6 wheel drive front axle.

Though covering a wide horsepower range, each tractor in the 6100 Series has in common one key benefit - **stable power**. With a unique combination of engine power and torque characteristics, the power flow (PTO) and

transmissions including Dynasafe, industry leading electronic control systems and first class engineering, the 6100 Series gives you integrated performance and versatility.
