The Virtues of Captain America Mark D. White,2024-07-18 Learn how Captain America s timeless ethical code is just as relevant in the twenty first century as it was during the 1940s Captain America or simply Cap provides an example of the virtues that define personal excellence as well as the ideals and principles upon which the United States of America was founded In The Virtues of Captain America philosopher and long time comics fan Mark D White shows us that this fictional

superhero's old-fashioned moral code is exactly what we need today to restore kindness and respect in our personal and civic lives. Presenting Captain America's personal morality within a virtue ethics framework, the book opens with an introduction to basic concepts in moral and political philosophy and addresses issues surrounding the use of fictional characters as role models. The following chapters examine Captain America in detail, exploring the individual virtues that Cap exemplifies, the qualities that describe his moral character, his particular brand of patriotism, his ongoing battle with fascism, his personal vision of the American Dream, his moral integrity and sense of honor, and much more. Now in its second edition, *The Virtues of Captain America* is updated to include all the new developments in Captain America's saga, including new examples from the last ten years of Captain America's appearances in Marvel Comics. New coverage of the recent Secret Empire storyline, in which Captain America was brainwashed by the fascist organization Hydra, features new sections examining the nature of fascism and how Captain America's character and virtues were affected by the change. This edition also offers new material on Sam Wilson, formerly Captain America's partner, the Falcon, who recently became Captain America himself, and how his interpretation of the role compares to Steve Rogers. Showing how we can be better people if we pay attention to the choices made by the Sentinel of Liberty, *The Virtues of Captain America* examines the moral and political philosophy behind 80 years of Captain America comics and movies in a light-hearted, often humorous tone. Demonstrates that the core principles and judgment exhibited by Captain America in the 1940s remain relevant in the twenty-first century. Describes the basic themes of Captain America's ethics, such as courage, humility, perseverance, honesty, and loyalty. Illustrates how Captain America stands for the basic ideals of America, not its politics or government. Requiring no background in philosophy or familiarity with the source material, the second edition of *The Virtues of Captain America* is a modern-day lesson on character from a World War II superhero. Remains a must-read for everyone wanting to make ethical decisions in complex real-world situations and tackle the personal and political issues of today with integrity and respect. [Mighty Avengers Vol.1](#) Brian Michael Bendis, 2008-09-03. The wait is over! The Mighty Avengers assemble! Gathered together to be the greatest Avengers team ever, but who picked them and why? And which A-list Avengers villain returns, revamped and reloaded for the ultimate revenge? Big superhero adventures from the multi-award-winning team of Bendis and Cho. *Mighty Avengers* 2007 1-6 **The Sleeper Agent in Post-9/11 Media** Vanessa Ossa, 2023-01-01. This book examines the figure of the sleeper agent as part of post-9/11 political, journalistic, and fictional discourse. There is a tendency to discuss the terroristic threat after 9/11 as either a faraway enemy to be hunted down by military force or, on the other hand, as a ubiquitous, intangible threat that required constant alertness at home. The missing link between these two is the sleeper agent, the foreign enemy hiding among US citizens. By analyzing popular television shows, several US comic books, and a broad variety of Hollywood films that depict sleeper agents, direct or allegorically, this book explores how a shift in perspective from terrorist to sleeper agent brings new insights into our understanding of post-9/11 representations of terrorism. The book's interdisciplinary focus between media studies

cultural studies and American studies suggests that it will find an audience in a variety of fields including historical research narratology popular culture as well as media and terrorism studies
