Mindworks Art Volume 5 A Spiritual Journey:

MINDWORKS ART, Volume 5 Richard Fisher, 2014-12-25 Leonardo daVinci urged us to look at a wall spotted with stains you may discover a resemblance to various landscapes beautified with mountains rivers rocks and trees Or again you may see battles and figures in action or strange faces and costumes and an endless variety of objects which you could reduce to complete and well drawn forms The process of MINDWORKS imagery is one of adventure Having no preconceived idea of what the final image will be the artist begins with a few vague marks on paper a kind of doodling These mark often are made with graphite charcoal and or lithograph pencils and more recently stabilo pencils which are water soluble and allow for tonal effects touching the marks with brush and water The initial drawing meditations random marks on paper replace stains on a wall are then scanned into the computer digitized and enhanced in the Photoshop program with changes of composition motif and color Since this imagery is created on the computer it is available only on the monitor screen or as an inkjet print It is an advent an adventure of discovery of self realization for the artist as well as the viewer It is a journey from NO where to NOW here

remain where natural soundscapes exist virtually unchanged from when the earliest humans first inhabited the earth Krause shares fascinating insight into how deeply animals rely on their aural habitat to survive and the damaging effects of extraneous noise on the delicate balance between predator and prey But natural soundscapes aren't vital only to the animal kingdom Krause explores how the myriad voices and rhythms of the natural world formed a basis from which our own musical expression emerged From snapping shrimp popping viruses and the songs of humpback whales whose voices if unimpeded could circle the earth in hours to cracking glaciers bubbling streams and the roar of intense storms from melody singing birds to the organlike drone of wind blowing over reeds the sounds Krause has experienced and describes are like no others And from recording jaguars at night in the Amazon rain forest to encountering mountain gorillas in Africa's Virunga Mountains Krause offers an intense and intensely personal narrative of the planet's deep and connected natural sounds and rhythm The Great Animal Orchestra is the story of one man's pursuit of natural music in its purest form and an impassioned case for the conservation of one of our most overlooked natural resources the music of the wild The Athenaeum ,1873
