

## Short Essay

# Albert Einstein

Albert Einstein was one of the greatest scientists of all time. He was born on March 14, 1879, in Germany. From a young age, Einstein was very curious and enjoyed learning about mathematics and science. He made many important discoveries, but he is most famous for his theory of relativity and the equation  $E=mc^2$ , which explains how energy and mass are related.

Einstein won the Nobel Prize in Physics in 1921 for his work on the photoelectric effect. This discovery helped scientists understand how light behaves. Despite his great intelligence, Einstein was humble and believed in using science to make the world a better place.

Einstein moved to the United States in 1933 and worked at Princeton University. He also supported peace and equality during difficult times in history.

His work continues to inspire scientists and learners all over the world. Einstein passed away on April 18, 1955, but his ideas and discoveries will always be remembered.
