Norman Sanders, 2021-01-06 This book covers the history of an important window of the computer era from about 1950 to 1970 No one proclaimed it computing evolved haphazardly as people and equipment sparked progress Academics and engineers invented the computer in several places at more or less the same time but it was a different profession programming that ushered it into business government and defence More recently of course computing in the form of phones and tablets has become accessible to over five billion people around the world What was originally intended solely as an arithmetic machine evolved in less than a century into a cornerstone of global society No one saw this coming The book will appeal to historians and teachers of technology and sociology it should also resonate with managers technologists and politicians In addition anyone who has ever wondered where the phone in their pocket came from or how their PC and iPad came to be will also be interested in the early days of computing how the pioneers laid the platform to the global social revolution which is still upon us **Touch** Gabriel Josipovici, 1996-09-25 In this new book a preeminent literary thinker muses over the central question of how we can feel at home in the world given that the world is independent of and indifferent to our wishes Drawing on books and films cultural history and his own experiences Gabriel Josipovici argues that

it is possible to feel comfortable in the world and in our relationships with others only if we value touch over sight if we respect distance but also work to overcome it Josipovici moves from a Charlie Chaplin film to passages from Proust from the world of sport to the world of addiction from medieval pilgrimages to the cult of relics from a wedding photograph of his grandparents to some of Chardin's most enigmatic paintings Through these seemingly disparate topics he provides engaging and wise commentary on connection and communication in life Contrasting the senses of sight and touch Josipovici notes that although sight seems to give us the totality of what we behold it is only when we walk or feel our way across the distances that things become more than images and begin to constitute the world in which we as touchers and not mere observers are included If we depend on sight which seems to offer a frictionless domination over reality we may avoid the pains and uncertainties of living but we also lose our involvement with life

Marketing Alex L. Goldfayn, 2012-01-03 In Evangelist Marketing Alex Goldfayn argues that technology companies succeed in spite of their marketing not because of it He says that if consumer tech makers ceased all marketing activity today they would not see a significant decline in sales In this book Alex presents why the current state of overly technical features oriented tech marketing branding communications and public relations is costing the industry billions of dollars easy money that s voluntarily being left on the table Then he lays out a step by step system for creating intensely loyal brand evangelists based on deep consumer insights and simple emotional language Evangelist Marketing is written for consumer tech companies big and small from PC manufacturers to Web based services It s also sure to improve the work of their marketing

and public relations agencies *Mastering the Nikon Z7* Darrell Young, 2019-08-13 *Mastering the Nikon Z7* by Darrell Young provides a wealth of experience based information and insights for owners of Nikon's new mirrorless full frame Z7 camera. Darrell is determined to help the user navigate past the confusion that often comes with complex and powerful professional camera equipment. This book explores the features and capabilities of the camera in a way that far surpasses the user's manual. It guides readers through the camera features with step by step setting adjustments, color illustrations and detailed how, when and why explanations for each option. Every button, dial, switch and menu configuration setting is explored in a user friendly manner with suggestions for setup according to various shooting styles. Darrell's friendly and informative writing style allows readers to easily follow directions while feeling as if a friend dropped in to share his knowledge. The information in this book goes beyond the camera itself and also covers basic photography technique.

Google Assistant
Vijay Kumar Yadav, 2023-04-14 When Google launched Google Assistant, Google envisioned a world in which you could control lights and thermostats with your voice, naturally communicate with your devices in multiple languages and simplify your daily tasks with voice controls and proactive reminders. Fast forward to today and every month more than 700 million people in over 95 countries and across 29 languages get things done reliably with their Assistant. Undertow Nash Hudson, 2024-04-26 On the outside it appeared that Nash Hudson, an aspiring cruise director, had his life together. He was overzealous, headstrong and extremely impatient while fulfilling his desires on his terms, first then demanding that God bless it all. Just as Nash skillfully shaped his next career steps, he was unexpectedly swept away by a current that would divinely reset his career trajectory and ultimately save his life. In this inspirational memoir, Nash reveals how, with his dreams hanging in the balance, he was relocated from his childhood home while suffering from the internalized side effects of fatherlessness, childhood trauma he mistakenly believed was wiped from his memories and an estranged relationship with God. As he chronicles his experiences, Nash offers a candid glimpse into the world of a broken man who hit rock bottom, discovered God was the rock at the bottom and embraced the necessary waves of character transformation that would propel him into an unfathomable experience he could have never envisioned. *Undertow* is the true story of one man's experiences in uncharted waters as he surrendered rebellion and pride and courageously rode a wave that eventually
