Myers And Modules 9th Edition:

Psychology In Modules David G. Myers, 2009-09-28 This version of the main text breaks down the chapters into shorter modules for more accessibility. The smaller chunks allow students to better grasp and explore psychological concepts. The modules also allow more flexibility in teaching as cross references to other chapters have been replaced with brief explanations. *Exploring Psychology, Eighth Edition, In Modules* David G. Myers, 2010-07-08 Exploring Psychology Eighth Edition in Modules is the modular version of the 1 bestselling brief introduction to psychology David Myers's Exploring Psychology. All the Myers hallmarks are here: the captivating writing, coverage based on the latest research, helpful pedagogical support in a format that delivers the utmost in student accessibility and teaching flexibility. *Psychology, Ninth Edition, In Modules (Loose Leaf)* David G. Myers, 2009-09-28 **Psychology, Seventh Edition, in Modules** David G. Myers, 2004-06 *Psychology In Modules (Spiral)* David G. Myers, 2009-09-28 Why Myers David Myers has become the world's best selling introductory psychology author by serving the needs of instructors and students so well. Each Myers textbook offers an impeccable combination of up to date research, well crafted pedagogy and effective media and supplements. Most of all, each Myers text demonstrates why this author's style works so well for students with his signature compassionate, companionable voice and superb judgment about how to communicate the science of psychology and its human impact. Why Modules This modules based version of Myers best selling full length text Psychology breaking down that book's 16 chapters into 59 short modules is yet another example of the author's ability to understand what works in the classroom. It comes from Myers' experiences with students who strongly prefer textbooks divided into briefer segments instead of lengthier chapters and with instructors who appreciate the flexibility offered by the modular format. Modular organization presents material in smaller segments. Students can easily read any module in a single sitting. Self standing modules. Instructors can assign modules in their own preferred order. The modules make no assumptions about what students have previously read. Illustrations and key terms are repeated as needed. This modular organization of short stand alone text units enhances teacher flexibility. Instead of assigning the entire Sensation and Perception chapter, instructors can assign the module on vision, the module on hearing and or the module on the other senses in whatever order they choose. Myers, 2003-09-22 *Comprehension [Grades K-12]* Douglas Fisher, Nancy Frey, Nicole Law, 2020-08-20 Radically change the way students learn from texts extending beyond comprehension to critical reasoning and problem solving. Is your reading comprehension instruction just a pile of strategies? There is no evidence that teaching one strategy at a time, especially with pieces of text that require that readers use a variety of strategies to successfully negotiate meaning, is effective. And how can we extend comprehension beyond simple meaning? Bestselling authors Douglas Fisher, Nancy Frey and Nicole Law propose a new comprehensive model of reading instruction.

that goes beyond teaching skills to fostering engagement and motivation Using a structured three pronged approach skill will and thrill students learn to experience reading as a purposeful act and embrace struggle as a natural part of the reading process Instruction occurs in three phases Skill Holistically developing skills and strategies necessary for students to comprehend text such as monitoring predicting summarizing questioning and inferring Will Creating the mindsets motivations and habits including goal setting and choice necessary for students to engage fully with texts Thrill Fostering the thrill of comprehension so that students share their thinking with others or use their knowledge for something else Comprehension is the structured framework you need to empower students to comprehend text and take action in the world
