Groen-Vallinga, 2022-11-17 Work and labour are fundamental to an understanding of Roman society In a world where reliable information was scarce and economic insecurity loomed large social structures and networks of trust were of paramount importance to the way work was provided and filled in Taking its cue from New Institutional Economics this book deals with the wide range of factors shaping work and labour in the cities of Roman Italy under the early empire from families and familial structures to labour collectives slavery education and apprenticeship To illuminate the complexity of the market for labour this monograph offers a new analysis of the occupational inscriptions and reliefs from Roman Italy placing them in the wider context by means of documentary evidence like apprenticeship contracts legal sources and material remains This synthesis therefore provides a comprehensive analysis of the ancient sources on work and labour in Roman urban society leading to a novel interpretation of the market for work and a fuller understanding of the daily lives of nonelite Romans For some of them work was indeed a source of pride whereas for others it was merely a means to an end or a necessity of life **Approval Guide**, 1995 *The Company They Keep* Lawrence Baum, Neal Devins, 2019-01-07 Are Supreme Court justices swayed by the political environment that surrounds them Most people think yes and they point to the influence of the general public and the other branches of government on the Court It is not that simple however As the eminent law and politics scholars Neal Devins and

Lawrence Baum show in *The Company They Keep* justices today are reacting far more to subtle social forces in their own elite legal world than to pressure from the other branches of government or mass public opinion In particular the authors draw from social psychology research to show why Justices are apt to follow the lead of the elite social networks that they are a part of The evidence is strong Justices take cues primarily from the people who are closest to them and whose approval they care most about political social and professional elites In an era of strong partisan polarization elite social networks are largely bifurcated by partisan and ideological loyalties and the Justices reflect that division The result is a Court in which the Justices ideological stances reflect the dominant views in the appointing president s party Justices such as Clarence Thomas and Ruth Bader Ginsburg live largely in a milieu populated by like minded elites Today s partisanship on the Court also stems from the emergence of conservative legal networks such as the Federalist Society that reinforce the conservative leanings of Republican appointees For the Warren and Burger Courts elite social networks were dominated by liberal elites and not divided by political party or ideology A fascinating examination of the factors that shape decision making *The Company They Keep* will reshape our understanding of how political polarization occurs on the contemporary Supreme Court

Sport and Ireland Paul Rouse, 2015-10-08 This is the first history of sport in Ireland, locating the history of sport within Irish political, social, and cultural history and within the global history of sport. *Sport and Ireland* demonstrates that there are aspects of Ireland's sporting history that are uniquely Irish and are defined by the peculiarities of life on a small island on the edge of Europe. What is equally apparent though is that the Irish sporting world is unique only in part; much of the history of Irish sport is a shared history with that of other societies. Drawing on an unparalleled range of sources—government archives, sporting institutions, private collections, and more than sixty local, national, and international newspapers—this volume offers a unique insight into the history of the British Empire in Ireland and examines the impact that political partition has had on the organization of sport there. Paul Rouse assesses the relationship between sport and national identity, how sport influences policy making in modern states, and the ways in which sport has been colonized by the media and has colonized it in turn. Each chapter of *Sport and Ireland* contains new research on the place of sport in Irish life: the playing of hurling matches in London in the eighteenth century; the growth of cricket to become the most important sport in early Victorian Ireland; and the enlistment of thousands of members of the Gaelic Athletic Association as soldiers in the British Army during the Great War. Rouse draws out the significance of animals to the Irish sporting tradition, from the role of horse and dogs in racing and hunting to the cocks, bulls, and bears that were involved in fighting and baiting.

Creative Women of Korea: The Fifteenth Through the Twentieth Centuries Young-Key Kim-Renaud, 2015-02-24 This book introduces important contributions in the humanities by a select group of traditional and modern Korean women from the 15th through the 20th centuries. The literary and artistic works of these women are considered Korean classics, and the featured artists and writers range from a queen to a courtesan to a Buddhist nun to unknown women of Korea. Although women's works were generally meant only to circulate among women, these creative expressions have caught the attention of literary and artistic connoisseurs. By bringing them to light, the book seeks to demonstrate how Korean women have tried to give their lives meaning over the ages through their very diverse yet common artistic responses to the details and drama of everyday life in Confucian Korea. The stories of these women and their work give us glimpses of their personal views on culture, aesthetics, history, society, politics, morality, and more.
