The Digital Ecosystem of Kenya Carolin Stötzel, 2024-09-26 The impact of the digital transformation on countries sustainable development is increasingly discussed in both theory and practice This multidisciplinary book analyzes the implications of digital technologies and services for governance structures and government action particularly in Kenya Using the emerging concept of digital ecosystems it uniquely combines digital development sustainability and governance research This book identifies factors characterizing digital ecosystems and challenges to their sustainable digital development e g lack of common understanding power asymmetries and dependencies of multi stakeholders For addressing these challenges it proposes coordination mechanisms including governance roles governance formats such as multi stakeholder partnerships as well as alternative solutions such as coordinative digital platforms These findings emphasize a deeper discussion around the digital transformation as a driving force and the global emphasis on partnerships if these are to foster and not impede sustainable development About the author Carolin St tzel holds a PhD in Political Science focusing on digital policy and international cooperation She is an expert in digital transformation governance and sustainable development

Autobiographical Identities in Contemporary Arab Culture Valerie Anishchenkova, 2014-07-16 Over the last 40 years autobiography in Arab societies has moved away from exemplary life narratives and toward more unorthodox techniques such as erotic memoir writing postmodernist self fragmentation cinematographic self projection and blogging Valerie Anishchenkova argues that the Arabic autobiographical genre has evolved into a mobile unrestricted category arming authors with narrative tools to articulate their selfhood Reading works from Arab nations such as Egypt Iraq Morocco Syria and Lebanon Anishchenkova connects the century s rapid political and ideological developments to increasing autobiographical experimentation in Arabic works The immense scope of her study also forces consideration of film and online forms of self representation and offers a novel theoretical framework to these various modes of autobiographical cultural production

Carl Schmitt and The Buribunks Edwin Bikundo, Kieran Tranter, 2022-04-06 In 1918 a young Carl Schmitt published a short satirical fiction entitled The Buribunks He imagined a future society of beings who consistently wrote and disseminated their personal diaries Schmitt would go on to become the infamous philosopher of the exception and for a while the Crown Jurist of the Third Reich The Buribunks ironically for beings that lived only for self memorialisation has been mostly lost to history However the digital realm with its emphasis on the informatic traces generated by human doing and the continual interest in Schmitt s work to explain and criticise contemporary constellations of power suggests that The Buribunks is a text whose epoch has come This volume includes the first full translation into English of The Buribunks and a selection of critical essays on the text its meanings in the digital present its playing with and criticism of the literary form and its place within Schmitt s life and work The Buribunks and the essays provide a complex critical and provocative invitation to reimagine the relations between the human and their imprint

and legacy within archives and repositories There is a fundamental exploration of what it means to be a being intensely aware of writing itself This is not just a volume for critical lawyers literary scholars and the Schmitt literati It is a volume that challenges a broad range of disciplines from philosophy to critical data studies to reflect on the digital present and its assembled and curated beings It is a volume that provides a set of fantastically located concepts images and histories that traverse ideas and practices play and politics power and possibility

The Nature of Data Jenny Goldstein, Eric Nost, 2022-10 When we look at some of the most pressing issues in environmental politics today it is hard to avoid data technologies Big data artificial intelligence and data dashboards all promise revolutionary advances in the speed and scale at which governments corporations conservationists and even individuals can respond to environmental challenges By bringing together scholars from geography anthropology science and technology studies and ecology The Nature of Data explores how the digital realm is a significant site in which environmental politics are waged This collection as a whole makes the argument that we cannot fully understand the current conjuncture in critical global environmental politics without understanding the role of data platforms devices standards and institutions In particular The Nature of Data addresses the contested practices of making and maintaining data infrastructure the imaginaries produced by data infrastructures the relations between state and civil society that data infrastructure reworks and the conditions under which technology can further socio ecological justice instead of re entrenching state and capitalist power This innovative volume presents some of the first research in this new but rapidly growing subfield that addresses the role of data infrastructures in critical environmental politics

Handbook of Research on Managerial Practices and Disruptive Innovation in Asia Ordoñez de Pablos, Patricia, Zhang, Xi, Chui, Kwok Tai, 2019-08-30

Collaboration in business allows for equitable opportunities and inclusive growth as the economy rises while also permitting partnering organizations to adopt and utilize the latest successful practices and management. However, a market in stasis may require a displacement in order to allow businesses to grow and create new alliances and partnerships toward a shared economy. There is a need for studies that seek to understand the necessity of market disruption and the best supervisory methods for remaining relevant and profitable in a time of change. *The Handbook of Research on Managerial Practices and Disruptive Innovation in Asia* is an essential reference source that explores successful executive behavior and business operations striving toward a more inclusive economy. Featuring research on topics such as employee welfare, brand orientation, and entrepreneurship, this publication is ideally designed for human resources developers, policymakers, IT specialists, economists, executives, managers, corporate directors, information technologists, and academicians seeking current research focusing on innovative business factors and sustainable economies in Asia. *Homelessness and Mobile*

Communication Justine Humphry, 2022-10-20. This book examines how mobile phones and the internet have become a vital part of the everyday lives of people experiencing homelessness. But the access mobile phones provide is costly, insecure, and limited, producing an experience of being precariously connected. Drawing on findings of research conducted with over one hundred young people, families, and adults experiencing homelessness in Australia and the United States, this book analyses homelessness as a mediated condition and explores the underpinning processes that shape digital disparities. It contributes to scholarship on mobile communication and inequality, highlighting the digital patterns, issues, and difficulties of a group disproportionately affected by service reform and developments in digital citizenship, smart cities, and algorithmic governance.

Digital Labour and Prosumer Capitalism Mathieu O'Neil, Olivier Frayssé, 2016-04-29. In the digital age, tasks are increasingly modularised, and consumers are increasingly becoming prosumers. Replacing digital labour and prosumption within an American context and the wider political economy, this volume presents a critical account of the forces which shape contemporary subjects, networks, and labour practices. *Hegemonic Masculinity, Caste, and the Body* Navjotpal

Kaur, 2024-09-23. Thoughtfully invoking wider conversations around gender, culture, and self-perception, Navjotpal Kaur investigates the intricate interplay between masculinities, space, and identity within Indian Punjab's Jat Sikh community.

The SAGE Handbook of Media and Migration Kevin Smets, Koen Leurs, Myria Georgiou, Saskia Witteborn, Radhika Gajjala, 2019-10-31. Migration moves people, ideas, and things. Migration shakes up political scenes and instigates new social movements. It redraws emotional landscapes and reshapes social networks with traditional and digital media, enabling representing and shaping the processes, relationships, and people on the move. The deep entanglement of media and migration expands across the fields of political, cultural, and social life. For example, migration is increasingly digitally tracked and surveilled, and national and international policy-making draws on data on migrant movement, anticipated movement, and biometrics to maintain a sense of control over the mobilities of humans and things. Also, social imaginaries are constituted in

highly mediated environments where information and emotions on migration are constantly shared on social and traditional media Both those migrating and those receiving them turn to media and communicative practices to learn how to make sense of migration and to manage fears and desires associated with cross border mobility in an increasingly porous but also controlled and divided world The SAGE Handbook of Media and Migration offers a comprehensive overview of media and migration through new research as well as a review of present scholarship in this expanding and promising field It explores key interdisciplinary concepts and methodologies and how these are challenged by new realities and the links between contemporary migration patterns and its use of mediated processes Although primarily grounded in media and communication studies the Handbook builds on research in the fields of sociology anthropology political science urban studies science and technology studies human rights development studies and gender and sexuality studies to bring to the forefront key theories concepts and methodological approaches to the study of the movement of people In seven parts the Handbook dissects important areas of cross disciplinary and generational discourse for graduate students early career researcher migration management practitioners and academics in the fields of media and migration studies international development communication studies and the wider social science discipline Part One Keywords and Legacies Part Two Methodologies Part Three Communities Part Four Representations Part Five Borders and Rights Part Six Spatialities Part Seven Conflicts
