**Enumerate and discuss the various domains of development.**

**A. Physical domain**

When referring to physical domain of development, it relates to the growth and skill development of the body, including the brain, muscles, and senses. Also, it covers the development of physical changes such as size and strength.

**B. Social Emotional Domain**

Social emotional domain of development talks about the process in which a child now learns to build relationships to the people in his surroundings. People in his environment includes his family, friends, teachers caregivers and etc that are essential in building his relationship to others. This is very important among children because this development influences a child's self-confidence, empathy, the ability to develop meaningful and lasting friendships and partnerships, and a sense of importance and value to those around him/her.

**C. Language Domain**

Language domain in child development involves the skills in listening, reading, writing and speaking. This is the ability of the child to learn and speak language. They learn about the social aspects of communication through engaging in turn-taking behavior in proto-conversations with their parents or infant care teachers.

**D. Cognitive Domain**

Cognitive Domain in child development involves how and the way children think, explore, and figure things out. It refers to things such as memory, and the ability to learn new information. This domain includes the development of knowledge and skills in math, science, social studies, and creative arts.
