English For Academic Purposes Ken Hyland:

English for Academic Purposes Ken Hyland, 2006 Routledge Applied Linguistics is a series of comprehensive resource books providing students and researchers with the support they need for advanced study in the core areas of English Language and Applied Linguistics. Each book in the series guides readers through three main sections enabling them to explore and develop major themes within the discipline. Section A Introduction establishes the key terms and concepts and extends readers' techniques of analysis through practical application. Section B Extension brings together influential articles, sets them in context and discusses their contribution to the field. Section C Exploration builds on knowledge gained in the first two sections, setting thoughtful tasks around further illustrative material. This enables readers to engage more actively with the subject matter and encourages them to develop their own research responses. Throughout the book, topics are revisited, extended, interwoven and deconstructed with the reader's understanding strengthened by tasks and follow-up questions. *English for Academic Purposes* introduces the major theories, approaches and controversies in the field, gathers together influential readings from key names in the discipline, including John Swales, Alasair Pennycook, Greg Myers, Brian Street and Ann Johns, provides numerous exercises as practical study tools that encourage in students a critical approach to this subject. Written by an experienced teacher and researcher in the field, *English for Academic Purposes* is an essential resource for students and researchers of Applied Linguistics.
