**Law, Ecology, and the Management of Complex Systems** Tiina Paloniitty, 2022-08-19 This book addresses the role of law in the adaptive management of socio ecological systems Recent years have witnessed a rise in discussion over the relation between adaptivity and law as if after decades of insouciance legal scholars have finally started to understand the impacts of the scientific paradigm called adaptive management on the legal sphere Even though the complicated relations between law and the adaptive management of socio ecological systems have become more debated a thorough examination of the scientific and theoretical fundamentals of such endeavours has yet to be presented Using the illustrative example of European Union water governance and its path toward embracing adaptive management this book emphasises the legal significance of properly understanding the manner in which scientific knowledge of the environment is

produced Though always pivotal rigorously apprehending science is especially crucial when dealing with the management of complex ecosystems as the normative is created gradually before law begins to examine the facts of the matter After examining the roots of adaptive management this book argues that the legal needs to understand itself as an integral part of the process of the socio ecological management of complex systems and not merely an external umpire resolving disputes As a whole the book offers new insights into the EU regulator s approaches to scientific realities making it an interesting read not only to academics and legal scholars but also to regulators striving to deepen their understanding or pondering which approach to adopt in the face of new regulatory challenges and to scientists interested in the science and law aspects of their work

**Fundamental Considerations in Technology Mediated Language Assessment** Karim Sadeghi,Dan Douglas,2023-04-27 Fundamental Considerations in Technology Mediated Language Assessment aims to address issues such as how the forced integration of technology into second language assessment has shaped our understanding of key traditional concepts like validity reliability washback authenticity ethics fairness test security and more Although computer assisted language testing has been around for more than two decades in the context of high stakes proficiency testing much of language testing worldwide has shifted to at home mode and relies heavily on the mediation of digital technology making its widespread application in classroom settings in response to the COVID 19 outbreak unprecedented Integration of technology into language assessment has brought with it countless affordances and at the same time challenges both theoretically and practically One major theoretical consideration requiring attention is the way technology has contributed to a reconceptualization of major assessment concepts constructs There is very limited literature available on the theoretical underpinnings of technology mediated language assessment This book aims to fill this gap This book will appeal to academic specialists practitioners or professionals in the field of language assessment advanced and or graduate students and a range of scholars or professionals in disciplines like educational technology applied linguistics and teaching English to speakers of other languages TESOL

Applications of Rehabilitation Engineering Technologies for the Intervention of Neural and Motor Impairment Post Stroke Dong Feng Huang, Guanglin Li, 2020-01-10 Stroke is the leading cause of disability worldwide Stroke survivors often have motor impairments which contribute to upper limbs dysfunctions reduced balance postural control and reduced mobility and proprioception These physical symptoms lead to reduced social participation and poor quality of life Over the past ten years there had been an enormous focus on the use of virtual reality VR and other technologies to improve clinical outcomes for people with stroke These technologies include large scale bespoke manufactured immersive virtual reality system or home based rehabilitation device such as the commercially available device Nintendo Wii and Microsoft Xbox The clinical efficacy of these rehabilitation technologies had been studied extensively but our understanding of the underlying mechanism of recovery induced by these technologies is poor There are two aspects of recovery must be considered One is the learning compensation strategies where patients acquired new skills to improve functional abilities The other aspect is the neuroplasticity mechanism which leads to cortical map reorganisation The patient is able to re use the same body segments in the same way as they did before the stroke Published studies generally reported improvement in upper limb function lower limb function balance and gait This leads to the uncertainty whether these technologies are effective in promoting recovery at neural level or functional level With the advance in technology monitoring techniques such as neural imaging motion analysis and EMGs devices have broad applications in the understanding of neural recovery post stroke Studies that utilize functional outcome measures or observational design may be more effective in identifying functional recovery A combination of the two designs may be helpful to provide new insights on the recovery mechanism induced by rehabilitation devices

*Desegregation State* Annie S. Mendenhall, 2022-04-15 The only book length study of the ways that postsecondary desegregation litigation and policy affected writing instruction and assessment in US colleges *Desegregation State* provides a history of federal enforcement of higher education desegregation and its impact on writing programs from 1970 to 1988 Focusing on the University System of Georgia and two of its public colleges in Savannah one a historically segregated white college and the other a historically Black college Annie S Mendenhall shows how

desegregation enforcement promoted and shaped writing programs by presenting literacy remediation and testing as critical to desegregation efforts in southern and border states. Formerly segregated state university systems crafted desegregation plans that gave them more control over policies for admissions, remediation, and retention. These plans created literacy requirements, admissions and graduation tests, remedial classes, and even writing centers and writing across the curriculum programs that reshaped the landscape of college writing instruction and denied the demands of Black students, civil rights activists, and historically Black colleges and universities for major changes to university systems. This history details the profound influence of desegregation and resistance to desegregation on the ways that writing is taught and assessed in colleges today. *Desegregation State* provides WPAs and writing teachers with a disciplinary history for understanding racism in writing assessment and writing programs. Mendenhall brings emerging scholarship on the racialization of institutions into the field, showing why writing studies must pay more attention to how writing programs have institutionalized racist literacy ideologies through arguments about student placement, individualized writing instruction, and writing assessment.

*Constitutionalism, Human Rights, and Islam after the Arab Spring* Rainer Grote, Tilmann J. Röder, 2016-07-25

*Constitutionalism, Human Rights, and Islam after the Arab Spring* offers a comprehensive analysis of the impact that new and draft constitutions and amendments such as those in Jordan, Morocco, Syria, Egypt, and Tunisia have had on the transformative processes that drive constitutionalism in Arab countries. This book aims to identify and analyze the key issues facing constitutional law and democratic development in Islamic states and offers an in-depth examination of the relevance of the transformation processes for the development and future of constitutionalism in Arab countries. Using an encompassing and multi-faceted approach, this book explores underlying trends and currents that have been pivotal to the Arab Spring while identifying and providing a forward-looking view of constitution making in the Arab world. Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 2017: Outside witness testimony United States.

Congress. House. Committee on Appropriations. Subcommittee on the Departments of Labor, Health and Human Services, Education, and Related Agencies, 2016. Exploring Mathematical Modeling with Young Learners Jennifer M. Suh, Megan H. Wickstrom, Lyn D. English, 2021-06-01. This book conceptualizes the nature of mathematical modeling in the early grades from both teaching and learning perspectives. Mathematical modeling provides a unique opportunity to engage elementary students in the creative process of mathematizing their world. A diverse community of internationally known researchers and practitioners share studies that advance the field with respect to the following themes: The Nature of Mathematical Modeling in the Early Grades; Content Knowledge and Pedagogy for Mathematical Modeling; Student Experiences as Modelers; Teacher Education and Professional Development in Modeling. Experts in the field provide commentaries that extend and connect ideas presented across chapters. This book is an invaluable resource in illustrating what all young children can achieve with mathematical modeling and how we can support teachers and families in this important work. ECSM2014-Proceedings of

the European Conference on Social Media Asher Rospigliosi, Sue Greener, Data Assimilation for Atmospheric, Oceanic and Hydrologic Applications (Vol. IV) Seon Ki Park, Liang Xu, 2021-11-09 This book contains the most recent progress in data assimilation in meteorology oceanography and hydrology including land surface It spans both theoretical and applicative aspects with various methodologies such as variational Kalman filter ensemble Monte Carlo and artificial intelligence methods Besides data assimilation other important topics are also covered including adaptive observations sensitivity analysis parameter estimation and AI applications The book is useful to individual researchers as well as graduate students for a reference in the field of data assimilation Reassessing the Social Studies Curriculum Wayne Journell, 2016-05-03 The terrorist attacks of September 11 2001 dramatically changed many aspects of American society and the ramifications of that horrific event are still impacting the domestic and foreign policies of the United States Yet fifteen years after 9 11 an event that was predicted to change the scope of public education in the United States we find that the social studies curriculum remains virtually the same as before the attacks For a discipline charged with developing informed citizens prepared to enter a global economy such curricular stagnation makes little sense This book which contains chapters from many leading scholars within the field of social studies education both assesses the ways in which the social studies curriculum has failed to live up to the promises of progressive citizenship education made in the wake of the attacks and offers practical advice for teachers who wish to encourage a critical understanding of the post 9 11 global society in which their students live

Reconstructing Paleodiets: Challenges and Advances Eduardo Jiménez-Hidalgo, Ferran Estebanaranz-Sanchez, Larisa R.G. DeSantis, Maciej Tomasz Krajcarz, Carlo Meloro, 2023-09-13 Reconstructions of diet provide valuable insights into the ecology and evolutionary history of animals and humans in the fossil record and the history of relationships between animals and humans Reconstruction of past diets allows tracking numerous ecological and behavioural aspects through time and across diverse geographic areas such as but not limited to trophic position niche sharing and niche partitioning past vegetation migration patterns ontogenetic and individual diet choices and adaptations to changing environment It also is a useful tool to track climatic change More broadly these insights are key to reconstructing and understanding the structure composition and function of past ecosystems Multiple approaches have been proposed to infer paleodiets including the integration of multiple proxy approaches The Influence of the Foreign Service Institute on US Language Education Theresa Ulrich, 2020-12-28 Through close analysis of primary source textual documents produced by the Foreign Service Institute FSI between 1947 and 1968 this unique text reveals the undocumented influence of the FSI on K 12 language instruction and assessment in the United States By investigating the historical development of the FSI and its attitudes and practices around language learning and bilingualism this text provides in depth insight into the changing value of bilingualism in the US and highlights how the FSI s practices around language instruction and assessment continue to influence language instruction in American public schools By mapping the development and integration of language proficiency assessments which strongly

resemble those used by the FSI historical analysis uncovers key political and economic motivations for increased promotion of language instruction in the US education system Providing insights into issues of language instruction and assessment in public education that persist today this book will be particularly useful to researchers and students interested in how policy formation has shaped language instruction and assessment in US public schools
