Usual Thomas W. Pogge, 2013-04-24 Worldwide human lives are rapidly improving Education health care technology and political participation are becoming ever more universal empowering human beings everywhere to enjoy security economic sufficiency equal citizenship and a life in dignity To be sure there are some specially difficult areas disfavoured by climate geography local diseases unenlightened cultures or political tyranny Here progress is slow and there may be set backs But the affluent states and many international organizations are working steadily to extend the blessings of modernity through

trade and generous development assistance and it won't be long until the last pockets of severe oppression and poverty are gone. Heavily promoted by Western governments and media, this comforting view of the world is widely shared at least among the affluent. Pogge's new book presents an alternative view. Poverty and oppression persist on a massive scale; political and economic inequalities are rising dramatically both intra-nationally and globally. The affluent states and the international organizations they control knowingly contribute greatly to these evils, selfishly promoting rules and policies harmful to the poor while hypocritically pretending to set and promote ambitious development goals. Pogge's case studies include the 1-day poverty measurement exercise, the cosmetic statistics behind the first Millennium Development Goal, the War on Terror, and the proposed relaxation of the constraints on humanitarian intervention. A powerful moral analysis that shows what Western states would do if they really cared about the values they profess.

Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International Associations, 2014-06-16. Volume 1 A and B covers international organizations throughout the world, comprising their aims, activities, and events.
