

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Towns and Cities: Function in Form Julian Hart,2016-03-09 Challenging existing assumptions about how our towns and cities are structured and formed Julian Hart provides an engaging and thought provoking alternative theory of urban design This is not urban design in the sense of the practice of design rather it is a theory of the form of the town at all scales why towns and cities happen to be structured the way they are as a result of the social political legal and especially economic forces that create them The shape of the city at every scale from the internal configuration of dwellings all the way up to the superstructure of the whole city can be seen to arise from the interplay between three antagonistic socio economic tensions In going about our daily business and in championing

particular political objectives we collectively fashion our cities in terms of their structure and form This leads to various new ways of understanding how and why our cities so happen to be configured the way they are The book makes a step change from any other comparable studies by understanding our towns and cities in terms of function in form This helps us to appreciate why every town is a recognisable town wherever it is Different urban environments in different parts of the world past and present can come to be seen according to their similarities instead of their differences Furthermore by appreciating how the economic influences of everyday life structure our towns and cities we can in turn begin to understand better how the shape of towns and cities affects the quality of life of inhabitants and the cohesiveness of communities In covering all scales from inside the home to macrostructure of the city the book encapsulates urban design through to town planning and does not seek to distinguish between the various design disciplines

Great Britain. Parliament. House of Commons. Public Administration and Constitutional Affairs Committee,2016 It is highly regrettable that the 1997 Parliament voted to proceed with devolution to Scotland and Wales without proper consideration being given to the well rehearsed West Lothian Question It was a failure to do so then that has led to the difficulties that the present Government is now seeking to address through EVEL As devolution from the UK level to Scotland Wales and Northern Ireland continues to develop there is a growing body of evidence that suggests an increasing

impatience with the constitutional anomalies to which this gives rise in England This was amplified during the 2015 General Election campaign in which the Conservatives focused voters minds on the possibility of SNP MPs holding the balance of power Of all the potential remedies to the English Question that have arisen from devolution the principle of English Votes for English Laws commands consistent and substantial popular support Put simply there appears to be a strong English demand for English Votes for English Laws As we heard from Professor Wyn Jones on balance the data suggest that there is support for the principle of English votes for English laws in Scotland and in Wales As yet however we have very little evidence about whether this support extends to the present scheme and its effects Nor as is explored later in this Report does this support extend to any political party in the House of Commons other than the Conservative Party
