English Paper4 Scope November

Hussin A.Rothana

English Paper4 Scope November:

Peerless and Periled Kati Suominen, 2012-06-20 As the world economy emerges from the financial crisis critics are announcing an end of the American era The United States is said to be in an inexorable decline and the expectation for the 21st century is for China to eclipse America and for the contours of global governance to blur The loss of America's preeminent status will undercut our sway abroad and our safety and standard of living at home But is America really done Is the American era really over In this provocative account based on interviews with senior policymakers and cutting edge research Kati Suominen argues that talk of the end of Pax Americana is more smoke than fire The international crisis did not fundamentally change the way the world is run The G20 is but an American created sequel to the G8 the US dollar still reigns supreme and no country has resigned from the US built post war financial institutions like the International Monetary Fund This continuity reflects an absence of alternatives there are no rival orders that would match the growth and globalization generated by leaving the United States at the helm But Washington has no time for complacency The American order is peerless but it is also imperiled To transcend this critical moment in history the United States must step up and lead Only America can uphold its order In an interdependent world economy of rising powers the US must stand for strategic multilateralism striking deals with pivotal powers to tame destabilizing financial imbalances securing free and fair markets abroad for US banks and businesses and transforming the IMF and emerging Asian and European financial schemes into rapid responders to instability

Computer-Assisted Research in the Humanities Joseph Raben, 2014-05-18 Computer Assisted Research in the Humanities describes various computer assisted research in the humanities and related social sciences It is a compendium of data collected between November 1966 and May 1972 and published in *Computer and the Humanities* The book begins with an analysis of language teaching texts including the DOVACK system a program used for remedial reading instruction It then discusses the objectives types of computer used and status of the Bibliographic On line Display BOLD semiotic systems augmented human intellect program automatic indexing and similar research The remaining chapters present computer assisted research on language and literature philosophy social sciences and visual arts Students who seek a single reference work for computer assisted research in the humanities will find this book useful [Resources in Education](#), 1998

Yankee Go Home? J. L. Granatstein,1996 *Yankee Go Home* traces the winding course of this feeling over two centuries from the United Empire Loyalists who fled north to escape unbridled republicanism through the early twentieth century when the barons of business were determined to keep out U S competition to the post war period when Canadian nationalists took up the cry Granatstein maintains that what began as a justifiable fear of invasion eventually became a tool of the economic and political elites bent on preserving their power At first anti Americanism was largely the Tory way of keeping pro British attitudes uppermost in the minds of Canadians Later with the right wing embracing the free trade deal it became the most important weapon of the nationalist left Today anti Americanism is weaker than ever before And what of the future
