At daylight I was half-awakened by the sound of chopping. Again it was so even in texture that I went back to sleep. When I left my bed in the cool morning, the boy had come and gone, and a stack of kindling was neat against the cabin wall. He came after school in the afternoon and worked until time to return to the orphanage. His name was Jerry he had been at the orphanage since he was four. I could picture him at four, with the same grave gray-blue eyes and the same—independence. No, the word that comes to me is 'integrity' It is bedded on courage, but it is more than brave. It is honest, but it is more than honesty. The axe handle broke one day. Jerry said the woodshop at the orphanage would repair it. I brought money to pay for the job and he refused it. "I'll pay for it," he said. "I broke it. I brought the axe down careless." "But no one hits accurately every time." I told him. "The fault was in the wood of the handle. I'll see the man from whom I bought it." It was only then that he would take the money. He was standing back of his own carelessness. He was a free-will agent and he chose to do careful work, and if he failed, he took the responsibility without subterfuge.

English Question Paper Dhaka Versity Season 2013 14:

Women and Climate Change in Bangladesh Margaret Alston, 2015-02-11 Bangladesh is by no means a high emitter of carbon but it is nevertheless one of the countries most critically affected. There is a significant risk of damage to lives and livelihoods due to climate change in the form of cyclones, flooding and storm surges and slow onset impacts such as droughts, sea level rises and river basin erosion. Moreover, Bangladeshis are especially vulnerable as a high proportion of people live in extreme poverty. This book assesses the impact of climate change in Bangladesh and presents the findings of a three year in depth study undertaken at village level in different districts of the country. It examines national policies contrasting them with what is actually happening at village level. It outlines the impact of climate change on livelihood strategies and health and focuses particularly on the impact on gender relations showing that although women have a significant role to play in helping communities cope with the effects of climate change, cultural customs and practices often work against this. The book argues for and puts forward policy proposals for recognising women's active contribution and supporting gender equality as a critical strategy in global adaptation to climate challenges.

Leading Works in Criminal Law Chloë Kennedy, Lindsay Farmer, 2023-08-11 This book analyses a selection of leading works in the criminal law to ask questions about how the modern discipline of criminal law has developed, how it has been deployed in colonial and postcolonial contexts and how criminal law scholarship has engaged with traditionally marginalised perspectives such as feminism, queer theory and anti carceral and abolitionist movements. The works analysed range from Macaulay's Indian Penal Code 1837 to more recent textbooks and monographs on criminal law and their jurisdictional reach extends to India, Canada, Australia, Malawi, the UK and the USA. The contributing authors include scholars, activists and legal practitioners, each of whom explores the intellectual development and geographical reach of Anglocriminal law via the work they analyse. Across the collection, the editors and contributors address the question of what it means to be a leading work in criminal law. The book will be a valuable resource for students, academics and researchers working in the area of criminal law.

Reconsidering Context in Language Assessment Janna Fox, Natasha Artemeva, 2022-04-06 This volume reconsiders the problem of context in language testing and other modes of assessment from the perspective of transdisciplinarity. Transdisciplinary assessment research brings together collaborators who draw on the strengths of their differing backgrounds and expertise in order to address high stakes, complex, socially relevant problems. Traditional treatments of context in language assessment research have generally been informed by individualist cognitive theories within measurement and psychometrics. The additive potential of alternative social theories including theories of genre, situated learning, distributed cognition and intercultural communication has largely been overlooked. In this book, the benefits of socio-theoretical reconsiderations of context are discussed and further exemplified in transdisciplinary research studies that investigate the use of assessment in classroom and workplace settings. The book offers a renewed view of context in arguments for the validity of assessment practices and

will be of interest to assessment researchers practitioners and students in applied linguistics education educational psychology language testing and other related disciplines and fields

Dunhuang Manuscript Culture
 Imre Galambos, 2020-12-07 Dunhuang Manuscript Culture explores the world of Chinese manuscripts from ninth tenth century Dunhuang an oasis city along the network of pre modern routes known today collectively as the Silk Roads The manuscripts have been discovered in 1900 in a sealed off side chamber of a Buddhist cave temple where they had lain undisturbed for for almost nine hundred years The discovery comprised tens of thousands of texts written in over twenty different languages and scripts including Chinese Tibetan Old Uighur Khotanese Sogdian and Sanskrit This study centres around four groups of manuscripts from the mid ninth to the late tenth centuries a period when the region was an independent kingdom ruled by local families The central argument is that the manuscripts attest to the unique cultural diversity of the region during this period exhibiting alongside obvious Chinese elements the heavy influence of Central Asian

cultures As a result it was much less Chinese than commonly portrayed in modern scholarship The book makes a contribution to the study of cultural and linguistic interaction along the Silk Roads **Audience Data and Research** Steven

Trotzke, 2017-05-22 This book reconsiders the linguistic notion of emphasis For many the concept of emphasis is confined to information structure However our understanding of the grammatical reflexes of emphasis is only partial as long as the expressive side of utterances is not taken into account The book explores similarities differences and interactions between information structure and the expressive dimension of language in the domain of natural language grammar Specifically this monograph demonstrates that specific word order options sometimes in combination with discourse particles yield meaning effects that are typical for the expressive side of utterances and endow them with an exclamative flavor Approaching this issue from a syntactic point of view the book shows that there are syntactic categories e g a certain class of particle verbs and word orders e g certain fronting patterns involving discourse particles that directly connect to expressive meaning components The work presented in this monograph combines theoretical analysis with experimental evidence from both
