New York Regents Exam Adele Scheele,Kaplan Educational Center Staff,Kaplan,1997-12 More than 147 000 New York State high school students take the Regents Exams every year in order to earn a Regents diploma and be eligible for a National Merit Scholarship Kaplan s programs offer the best approach to demystifying the Regents exams Kaplan s guides include sample tests content review practice questions and demonstrated Kaplan test taking techniques The Teacher's Gradebook Barry Raebeck,2002-07-16 In The Teacher s Gradebook Barry Raebeck a practicing secondary school English teacher shares the grading strategies that he uses so successfully with his own students Ample discussion is given to not only grading techniques but also to other important issues surrounding the philosophy and ethics of grading These include test construction rubric creation grade friendly projects assessment without grades and cultivating student ownership of the grading process Using these strategies can bolster student interest and achievement in the classroom and can dispel the all too familiar behavioral and attention problems Written for teachers by a teacher this concise straightforward and practical book will help your own gradebook look quite differently *Discipline Problems* Tadashi Dozono,2024-05-07 Angel a Black tenth grader at a New York City public school self identifies as a nerd and likes to learn But she s troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in *Discipline Problems* has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she s taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high

school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners

Early Holistic Scoring of Writing Richard Haswell,Norbert Elliot,2019-11-01 What is the most fair and efficient way to assess the writing performance of students Although the question gained importance during the US educational accountability movement of the 1980s and 1990s the issue had preoccupied international language experts and evaluators long before One answer to the question the assessment method known as holistic scoring is central to understanding writing in academic settings Early Holistic Scoring of Writing addresses the history of holistic essay assessment in the United Kingdom and the United States from the mid 1930s to the mid 1980s and newly conceptualizes holistic scoring by philosophically and reflectively reinterpreting the genre s origin
