

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

**The Normal Accident Theory of Education** Andrew K.

Milton, 2014-04-01 Much of the current debate about education too often resembles the blind men describing an elephant apprehending only a particular part of the situation or the process many analysts tell an evocative but incomplete story The so called reform discussion proceeds with a lack of depth about the nuances and realistic limitations in the institutional order of school This book argues that as regulation of schools moves further up the bureaucratic hierarchy first to state departments of education then to the national department of education the legal and institutional requirements get more intensive but less concretely useful in class rooms This bureaucratization serves to tighten the organizational environment thereby increasing the risk of normal accidents The increasing governmental management in other words makes it more likely that schools will fail to meet their goals Analyses of education are too often developed for public consumption in a fast moving political world This book examines some of the deeper organizational reasons why things don't work so well in school as well as a look at some of things that do work Most importantly the book will explain how the social and cultural expectations of what schools can do may create unrealistic hopes We as a society and schools as institutions embrace these unreasonably high hopes at our collective peril Check out Andrew's latest interview with Seattle Radio <http://kiroradio.com> listen 9972862

**Demotivation in Second Language Acquisition** Keita Kikuchi, 2015-08-05 SLA literature tends to focus predominantly on what motivates language learners, but what demotivates them has not been widely discussed. This book, focusing exclusively on demotivation, will help readers to understand motivational issues from a different perspective.
