The Euro Trap Hans-Werner Sinn, 2014-07-31 This book offers a critical assessment of the history of the euro its crisis and the rescue measures taken by

the European Central Bank and the community of states The euro induced huge capital flows from the northern to the southern countries of the Eurozone that triggered an inflationary credit bubble in the latter deprived them of their competitiveness and made them vulnerable to the financial crisis that spilled over from the US in 2007 and 2008 As private capital shied away from the southern countries the ECB helped out by providing credit from the local money printing presses The ECB became heavily exposed to investment risks in the process and subsequently had to be bailed out by intergovernmental rescue operations that provided replacement credit for the ECB credit which itself had replaced the dwindling private credit The interventions stretched the legal structures stipulated by the Maastricht Treaty which in the absence of a European federal state had granted the ECB a very limited mandate These interventions created a path dependency that effectively made parliaments vicarious agents of the ECB's Governing Council This book describes what the author considers to be a dangerous political process that undermines both the market economy and democracy without solving southern Europe's competitiveness problem It argues that the Eurozone has to rethink its rules of conduct by limiting the role of the ECB exiting the regime of soft budget constraints and writing off public and bank debt to help the crisis countries breathe again At the same time the Eurosystem should become more flexible by offering its members the option of exiting and re-entering the euro something between the dollar and the Bretton Woods system until it eventually turns into a federation with a strong political power centre and a uniform currency like the dollar

The War Lawyers Craig Jones, 2020-11-26 Over the last 20 years the world's most advanced militaries have invited a small number of military legal professionals into the heart of their targeting operations spaces which had previously been exclusively for generals and commanders These professionals trained and hired to give legal advice on an array of military operations have become known as war lawyers The War Lawyers examines the laws of war as applied by military lawyers to aerial targeting operations carried out by the US military in Iraq and Afghanistan and the Israel military in Gaza Drawing on interviews with military lawyers and others this book explains why some lawyers became integrated in the chain of command whereby military targets are identified and attacked whether by manned aircraft drones and/or ground forces and with what results This book shows just how important law and military lawyers have become in the conduct of contemporary warfare and how it is understood Jones argues that circulations of law and policy between the US and Israel have bolstered targeting practices considered legally questionable contending that the involvement of war lawyers in targeting operations enables legitimises and sometimes even extends military violence

Norms, Groups, Conflict, and Social Change Ayfer Dost-Gozkan, 2017-07-05 This book is about the life and work of a Turkish American social scientist Muzafer Sherif

1905-1988 He was known for his seminal work on norm and group formations, social judgment and intergroup conflicts and cooperation. Although Sherif is identified as one of the founders of social psychology, his contribution to the science of psychology goes beyond the limits of social psychology as it is generally defined today. This volume aims to rediscover the theory and research of its subject in the socio-historical context of his time as well as his relevance for contemporary psychology. Chapters cover a range of topics: an in-depth portrayal of Sherif's life and intellectual struggle in Turkey and in the United States; his metatheoretical considerations on the science of psychology; his theory and research on group and intergroup relationships; social norms and social change; formation and change of frames of reference; ego involvements and identity; and psychology of slogans. Sherif had profound life experiences in different cultural contexts: from the Ottoman Empire and World War I to American universities, which enabled him to see the essentiality of the historico-cultural context in the formation of human phenomena. Sherif's psychology is an elegant exemplar of an integrative science of psychology that is worth rediscovering.

Why America Loses Wars Donald Stoker, 2022-05-26 How can you achieve victory in war if you don't have a clear idea of your political aims and a vision of what victory means? In this provocative challenge to US political aims and strategy, Donald Stoker argues that America endures endless wars because its leaders no longer know how to think about war: particularly wars fought for limited aims, taking the nation to war without understanding what they want or valuing victory, and thus the ending of the war. He reveals how flawed ideas on so-called limited war and war in general evolved against the backdrop of American conflicts in Korea, Vietnam, Iraq, and Afghanistan. These ideas, he shows, undermined America's ability to understand, wage, and win its wars and to secure peace. Now fully updated to incorporate the American withdrawal from Afghanistan, *Why America Loses Wars* dismantles seventy years of misguided thinking and lays the foundations for a new approach to the wars of tomorrow.

Foggy Notions: Memorandum of a Man-in-the-Making Andrew Pschirrer, 2017-01-26 An estimated 350 million people worldwide suffer from depression in some form or another; that's roughly 5% of the global population. Ten years ago, this malady became the inspiration for the author to begin scribbling down his own personal experiences and observations, documenting the overwhelming battle for his mind if only to simply deal with the mounting frustrations, struggles, angst, and confusion. These recorded thoughts began to add up and collect moss of reflection, introspection, and retrospection, eventually evolving into sixteen separate yet intertwining chapters, from the warm, flexible facts of his beginnings to the resilient joys of finding so many opportunities in the plentiful mistakes of his ongoing journey. Mistakes such as being one of the first students in his grade accepted to college yet failing to show up for high school graduation, then boldly entering into a major of psychology nearly twenty years later in a perfectly ripe season. *Foggy Notions: Memorandum of a Man in the Making* engages some of those wondrous questions that we all attempt to juggle on a daily basis. Herein lies the informal record of someone who was color blind at birth, taxpayer at fourteen, high school dropout at eighteen, married at twenty, divorced at twenty-three, and insatiable student of life from then on. It is the noteworthy account

of someone who has lived within around under the weight of and symbiotically detached from depression for nearly a quarter of a century It is part memoir part exterior help part interior guidance part something unspoken Waiting patiently within the pages are a little bit of logic and a whole lot of lessons learned After spending most of his life chasing and wasting time somehow he always seems to have an ample amount left over at exactly the right instant to do what he needs to in the perfect span of ticks and tocks
