Daring to Be Great** Jennifer Weber, 2016. This 2016 Enrollment Report was prepared for the State Board of Higher Education by the North Dakota University System. NDUS Enrollment trends highlighted herein include a one year comparison for two year institutions, four year institutions and system wide. Trends over the last five years and the last ten years are also described. For example, over the last five years headcount in the NDUS has remained steady, decreasing overall by less than one percent or by a total of 370 students. Over this time period the largest shift has been a decrease of students attending regional universities: 9.83% or 738 students, with the largest decrease occurring at DSU Dakota State University: 713 students, which experienced a 35.51% change in headcount. The ten year NDUS headcount has increased 13.33% from 39,629 to 44,910. The system has currently 370 students less than the highest observed student headcount in Spring 2012: 45,280 and 5,281 students more than the lowest observed student headcount in Spring 2007: 39,629. Over the same ten year time period FTEs has increased by 2,495 or 7.61%. For the 2016 Fall Enrollment Report see ED572887.

2016 Fall Enrollment Report. Daring to Be Great Jennifer Weber, 2016. To improve student access and success in North Dakota University System institutions, the State Board of Higher Education has implemented enrollment policies that better reflect the differentiated missions of research universities, regional universities and community colleges. This report addresses the transition in policy by grouping data by institutional mission. The North Dakota University System includes two research universities, four regional universities and five two year community colleges. As required by the North Dakota State Board of Higher Education, this enrollment report includes all degree credit enrollments for all NDUS institutions and is consistent with protocols implemented by the Integrated Postsecondary Education Data System. Open Enrollment Micah Ann Wixom, 2017. Open enrollment policies allow students to transfer from one public school to another of their choice. While open enrollment policies involve students transferring to another school or district, the specifics of these policies vary significantly across states. States' open enrollment policies may allow for voluntary or mandatory participation at the district level and they can also allow for intradistrict transfer, interdistrict transfer or both. This policy analysis provides an overview of open enrollment policies across the country as well as a 2016 state by state legislative update.
