Bibliographie nationale française, 1999 Quand la folie parle Gillian Ni Cheallaigh, Laura Jackson, Siobhan
McIlvanney, 2014-06-26 Quand la folie parle presents a timely reinvigoration of the complex subject of madness and its
literary manifestations This stimulating study authored by a range of young and talented international scholars is of key
importance in defining and refining our ongoing endeavours to theorise and analyse the literary representations of the
problematics of mental health By including discussions of texts that speak of madness as well as those that speak from
madness this volume demonstrates that in fact the non sense of madness achieves a force of expression often more powerful
than the usual order of logic Embracing the scientific the religious the medical the psychoanalytic the historical the erotic
and of course the properly literary this wide ranging historically informed collection is particularly significant in its
exploration of both the madwoman and the madman and exhibits an inclusiveness which extends to the genres and modes of
the texts examined The authors discussed from Nerval and Houellebecq to NDiaye and L provide a refreshingly balanced
picture of mental illness presenting madness or depression as a contestatory creative stance against often mind numbing
social racial or consumerist conventions while refusing to play down the inevitable difficulties accompanying this isolating
condition The dialectic effect referenced in the title of the collection extends not only to the dynamics at work within the
volume itself as the different contributions implicitly dialogue with one another but equally to the reader of these essays who
is engaged throughout in the debates put forward **Le Journal de la jeunesse**, 1881 **Dictionnaire des œuvres
