

Background: Bird Strikes in Aviation

- Occur when a bird collides with an aircraft; usually cause little damage, but can be devastating (ex. American Airlines Flight 1549 Hudson River incident).
- Roughly 10,000 strikes are reported annually; estimates suggest that as few as half of total strikes are reported.
- Less than 8% of strikes occur above 3,000 feet and 61% occur at less than 100 feet (according to FAA Wildlife Hazard Management Manual).
- FAA estimates \$400 million in damages annually are attributed to bird strikes in the United States alone, and over \$1.2 billion in damages occur annually worldwide.

Bird Strike Michael N. Kalafatas, 2015-02-02 On a warm and golden afternoon October 4 1960 a Lockheed Electra jet turboprop carrying 72 souls took off from Logan Airport Seconds later the plane slammed into a flock of 10 000 starlings and abruptly plummeted into Winthrop Harbor The collision took 62 lives and gave rise to the largest rescue mobilization in Boston's history which included civilians in addition to police firefighters skindivers and Navy and Coast Guard air sea rescue teams Largely because of the quick action and good seamanship of Winthrop citizens many of them boys in small boats ten passengers survived what the Civil Aeronautics Board termed a non survivable crash Using firsthand interviews with survivors of the crash rescuers divers aeronautics experts and ornithologists as well as a wide range of primary source material Kalafatas foregrounds the story of the crash and its aftermath to anchor a broader inquiry into developments in the aeronautics industry the increase in the number of big birds in the skies of North America and the increasing danger of bird strikes Along the way he looks into interesting historical

sidelights such as the creation of Logan Airport the transformation of Boston's industrial base to new technologies and the nature of journalistic investigations in the early 1960s The book is a rare instance when an author can simultaneously write about a fascinating historical event and a clear and present danger today Kalafatas calls for and itemizes solutions that protect both birds and the traveling public
