Francesco Tonucci **Nazi Occultism** Stéphane François,2023-03-14 Nazi Occultism provides a serious scholarly study of a
topic that is often marred by sensationalism and misinformation The Morning of the Magicians by Pauwels and Bergier 1960
gave rise to the idea that a secret society with wide powers the Thule society was the hidden and ignored centre of Nazism
The influence of this very real small group is however only a fantasy a myth The author a historian specializing in neo Nazism
looks back on this speculative construction its origins its ideological tinkering and the practices which have succeeded in
forming a sort of radical and sulphurous counterculture which has created a fascination with esotericism and Nazism and the
SS To better understand it he also paints a portrait of some of the authors who contributed to this extremist subculture such

as the Italian esotericist Julius Evola the Argentine anthropologist Jacques Marie de Mahieu Chilean neo Nazi Miguel Serrano and the writer Jean Paul Bourre This book will appeal to scholars researchers and activists as well as general readers with an interest in the history of Nazism and the occult

Faces and Masks Eduardo Galeano, 2014-04-29 A book as fascinating as the history it relates Galeano is a satirist realist and historian Los Angeles Times For centuries Europe's imperial powers brutally exploited the peoples and resources of the New World While soldiers of fortune marched across continents in search of El Dorado white settlers established plantations and trading posts along the coasts altering the land and bringing disease and slavery with them In the midst of a bloody collision of civilizations the West has birthed new societies out of the old In the second book of his Memory of Fire trilogy Eduardo Galeano forges a new understanding of the Americas history retold from a diverse collection of viewpoints Spanning the end of empire and the age of revolutions Faces and Masks brilliantly collects the strands of the past into an iridescent work of literature

The Globalization of Surveillance Armand Mattelart, 2010-10-11 Video surveillance public records fingerprints hidden microphones RFID chips in contemporary societies the intrusive techniques of surveillance used in daily life have increased dramatically The war against terror has only exacerbated this trend creating a world that is closer than one might have imagined to that envisaged by George Orwell in 1984 How have we reached this situation Why have democratic societies accepted that their rights and freedoms should be taken away a little at a time by increasingly sophisticated mechanisms of surveillance From the anthropometry of the 19th Century to the Patriot Act through an analysis of military theory and the Echelon Project Armand Mattelart constructs a genealogy of this new power of control and examines its globalising dynamic This book provides an essential wake up call at a time when democratic societies are becoming less and less vigilant against the dangers of proliferating systems of surveillance

Las runas y el sendero de la iniciación Juan Ricardo Céspedes, 2016-07-11 La intención de este libro es abordar el estudio y praxis de los símbolos mágicos rítmicos desde un punto de vista gnóstico e iniciático Específicamente se requiere de la gnosis propia de alguien que posee la actitud de un Kshatriya del guerrero mago iniciado que se rige por valores como el valor y el honor en medio de un proceso de despertar y mutación constantes En este libro se aborda el conocimiento y práctica rítmica con el enfoque de una ciencia esotérica que paulatinamente produce una transformación interior y trascendental de manera similar a lo que acontece con la alquimia y el tantrismo Shivaista Por lo tanto ser común a lo largo de este libro encontrar referencias y analogías hechas desde el reino de las runas hacia términos y símbolos propios de otras prácticas iniciáticas
