some of today's biggest social platforms I present you with a very practical approach to each social network and answer some of the biggest questions businesses have. This is definitely a must read if you're just beginning your social media journey. Without an audience there's not much use for a social media strategy. In today's marketing age your audience matters more than ever. Every business needs one to survive. It's how you discover and forge loyal relationships with customers. But in many cases businesses treat their audiences like afterthoughts rather than assets. A bottom up strategy for creating a foundation building your assets attracting followers and integrating social media and blogging. It's a great resource for beginners as well as seasoned professionals looking to improve. Your priority isn't to sell a product but rather help someone discover how your product solves their problem. By focusing on helping you'll develop stronger relationships with more loyal customers than if you focus solely on selling. When you consider the selling power of sites like Facebook and Twitter that stat might seem surprising I provide you with all of the information and tools necessary to engage customers in a digital world. My advice is practical concise and helps you leverage the human side of your business. Currently more than 500 million Tweets are composed each day on Twitter and 80 million photos are shared daily on Instagram. To add to it more than 30 billion pieces of content are shared on Facebook each month. To say consumers are overloaded by information would be an understatement. Beyond sales a social media marketer must keep an eye on Tweets shares Likes Pins regrams revines clicks unlikes and much more. With so many measurable metrics it's easy to lose sight of what truly matters. Success isn't getting 1 000 Retweets of a funny picture you posted. Instead great social media is about providing value to your customers. It was recently determined that people lose concentration after only eight seconds leaving marketers with a very small window for impact. As a result images were adopted as a way to work around our diminishing attention spans.
