Fact about Karma Ashley Johnson,2015-01-07 Being generous is a positive quality that most people can relate to. Generally people like being around generous individuals as opposed to selfish and self-centered individuals. [read more](#) [The Mother's Truth](#) Leon du Preez,2020-07-12 The Mother Goddess is the ultimate Matriarch. She knows you very well even if you do not know her. She is the one taking good care of you always. Why did the Boer Nation lose its two independent states in 1902? How did this happen and who should be blamed? Satan used the name Jesus to draw all prayers to himself, thereby abusing our worship of Jesus. This is all upside down and hidden right in front of our faces where we don't even see it. This is why the Goddess planned for tribulations to take place soon so humanity can get our chance to fulfill our destiny. Otherwise Satan, Lucifer, and his friends will never stop trouble making. Now is our only time to turn things right and grow into being multidimensional again so there can be no more lying to us. We Boers want our two Republics returned to us right now where we can live freely and govern ourselves. Thanks to the Goddess who will make all this happen as prophesized. Satan and his friends will have no chance because the Goddess is on our side. **The Reason We Are Here - The Truth** Mary E McGovern,2004 Readers will discover the roles the soul and the ego play in their lives as well as the universal message of the Truth as it relates to their lives. *Why Bad Things Can't Happen To Good People!* AiR - Atman in Ravi,2020-01-15 Why bad things can't happen to good people by AiR is a powerful spiritually inspiring book that explores the universal Law of Cause and Effect and explains that we only reap what we sow and thus bad things can never happen to us if we are good.

No faith and no sensory observations or experiments are required. No one needs to spend billions on a Large Hadron Collider. It's not an atom smasher you need but a bullshit and fallacy smasher. Hyper-rationalism differs from rationalism in asserting that all rational truths are mathematical and that the universe is 100% mathematical. Hyperreason is the extraordinary story of the attempts of the rational to explain reality via thought alone. Find out about Thomas Aquinas's five rationalist proofs for the existence of God, Leibniz's ontological argument and principle of sufficient reason, Gödel's Incompleteness Theorem, the Riemann hypothesis, the Multiverse theories of science, and why the human brain
