reconfigure well known fairy tales by combining individual tales into a single storyworld others self referentially turn to fairy tales for guidance These contemporary tales have at their center a crisis about the relevance and sustainability of fairy tales and Williams argues that they both engage the fairy tale as a relevant genre and remake it to create a new kind of fairy tale Mapping Fairy Tale Space is divided into two parts Part 1 analyzes fairy tale texts that collapse multiple distinct fairy tales so they inhabit the same storyworld transforming the fairy tale genre into a fictional geography of borderless tales Williams examines the complex narrative restructuring enabled by this form of mash up and expands postmodern arguments to suggest that fairy tale pastiche is a critical mode of retelling that celebrates the fairy tale genre while it critiques outdated ideological constructs Part 2 analyzes the metaphoric use of fairy tales as maps or guides for lived experience In these texts characters use fairy tales both to navigate and to circumvent their own situations but the tales are ineffectual maps until the characters chart different paths and endings for themselves or reject the tales as maps altogether Williams focuses on how inventive narrative and visual storytelling techniques enable metafictional commentary on fairy tales in the texts themselves Mapping Fairy Tale Space argues that in remaking the fairy tale genre these texts do not so much chart unexplored territory as they approach existing fairy tale space from new directions remapping the genre as our collective use of fairy tales changes Students and scholars of fairy tale and media studies will welcome this fresh approach The Pied Piper and the Wrong Song Laura North,2018-01-18 Read Along or Enhanced eBook In this classic fairy tale retold with a twist the Pied Piper has been asked to rid the town of rats But when he plays his magic pipe the rats are still there but unexpected things start to happen 25 Quick Mini-Lessons to Teach Narrative Writing Dave Leochko,2000 In this collection of engaging mini lessons and companion reproducible pages teacher Dave Leochko shares his favorite writing lessons ones that have really helped his students become better writers The classroom tested lessons in this book take young writers through all the steps of the writing process including getting an idea revising a story and conferencing with other writers while also targeting specific skills such as using punctuation correctly varying sentence structure making characters believable and developing a plot The reproducible pages feature activities that let students apply new skills as well as writing tips and strategies they can collect and use a reference For use with Grades 4 8
