Tracing the Contours of Faith Fehr, Wayne L. Fehr, 2013-09 This book is a collection of brief essays written in response to specific questions about the Christian faith, vision of reality The questions addressed here have arisen out of the experience of ordinary Christians trying to make sense of their faith Some are asking about particular Church words Some are expressing difficulties in believing Some are probing the paradoxes of Christian existence The author responds as a professional theologian writing in a non-technical way for fellow believers His purpose is to make the best insights of sound theology available to ordinary Church members in order to minister to their faith life Although many of these brief essays are limited in scope there is a coherent understanding of Christian faith that underlies all of them Each essay is simply articulating part of that understanding in response to a specific question Wayne Fehr has been a priest for many years first in the Roman Communion where he was ordained in 1969 as a member of the Jesuit Order and then later in the Anglican Communion where he was received as a priest by the Bishop of Milwaukee in 1988 He is also an academic theologian with a doctoral degree in religious studies systematic theology from Yale University and a number of years of teaching experience on the graduate level as well as with undergraduates These two vocational commitments as priest and as theologian have come together for him in a life-long involvement with the interpretation of Christian faith for the benefit of his fellow believers At present he is a member of Trinity Episcopal Church in Wauwatosa, Wisconsin where he serves as Priest Associate Previous books are his doctoral dissertation *The Birth of the Catholic Tübingen School* and with Donald Hands *Spiritual Wholeness* for

Bevans, 2009 **For the Life of the World (Theology for the Life of the World)** Miroslav Volf, Matthew Croasmun, 2019-01-22 Christianity Today 2020 Book Award Award of Merit Theology Ethics Outreach 2020 Recommended Resource of the Year Theology and Biblical Studies The question of what makes life worth living is more vital now than ever In today's pluralistic postsecular world universal values are dismissed as mere matters of private opinion and the question of what constitutes flourishing life for ourselves our

neighbors and the planet as a whole is neglected in our universities our churches and our culture at large Although we increasingly have technology to do almost anything we have little sense of what is truly worth accomplishing In this provocative new contribution to public theology world renowned theologian Miroslav Volf named America's New Public Intellectual by Scot McKnight on his Jesus Creed blog and Matthew Croasmun explain that the intellectual tools needed to rescue us from our present malaise and meet our new cultural challenge are the tools of theology A renewal of theology is crucial to help us articulate compelling visions of the good life find our way through the maze of contested questions of value and answer the fundamental question of what makes life worth living

Fundamentals of the Faith Peter

Kreeft,2009-10-27 Kreeft considers all the fundamental elements of Christianity and Catholicism explaining defending and showing their relevance to our life and the world's yearnings Here is a book to help you understand your faith more fully and to explain it to others more winningly Like every religion this faith has three aspects corresponding to the three parts of the soul and filling the innate needs of all three parts Kreeft uses these three divisions as the basic outline for his Christian apologetics First every religion has some beliefs whether expressed in creeds or not something for the intellect to know Second every religion has some duty or deed some practice of program some moral or ethical code something for the will to choose Finally every religion has some liturgy some worship some church something for the body and the concrete imagination and the aesthetic sense to work at Creed Code and Cult Words Works and Worship are a most useful way of outlining any religious faith including the Catholic Faith of Christians These essays were written for Catholics by a Catholic But I believe that nearly everything I say here will be found by the orthodox Biblical Protestant reader to be his faith as well That solid and substantial core that C S Lewis called mere Christianity Peter Kreeft

Monotheism and Faith in God Ian

G. Wallis,2020-12-24 After offering a brief overview of the role of faith within Judaism Christianity and Islam an interdisciplinary analysis of faith belief belief systems and the act of believing is undertaken The debate over the nature of doctrine between George Lindbeck and Alister McGrath brings into focus four ways in which beliefs can be employed expressive interpretative formative and referential relational An analysis of monotheistic belief ensues which demonstrates how it can function meaningfully in each of these modes including the last where insights from phenomenology and relational ontology as well as philosophical theology favour a participatory approach in which God is encountered not as an object of investigation but as that transcendent Other whose worship is the fulfilment of human being The study concludes by highlighting convergences between the nature of faith presented in the initial scriptural overview and that developed throughout the rest of the study

Faith and Logic Basil Mitchell,2013-07-18

When this book was originally published in 1957 there had been lively debates on the air and in the press about the bearing of modern philosophy upon Christianity but there had been relatively little sustained discussion of the subject This book of essays was the product of a small group of Oxford philosophers and theologians who had met and talked informally for some years before writing it It is an attempt to

discuss with care and candour some of the problems raised for Christian belief by contemporary analytical philosophy In asking the questions raised this book makes articulate the perplexities of many intelligent people both believers and unbelievers The contributors concentrate on the way such concepts as God Revelation the Soul Grace are actually used rather than asserting or denying some very general theory of meaning

Secular Faith Vincent William Lloyd, Elliot A. Ratzman, 2011-01-01 Is faith a necessary virtue in the contemporary world May it be or must it be detached from religious commitment What do genealogies of the secular tell us about faith Does religion need secular faith Secular Faith brings together leading and emerging scholars to reflect on the apparent paradox of secular faith Ranging over anthropology religious studies political science history and literature from Muslims in China to Pentecostals in South Africa to a prison chapel in Texas this collection of essays is as engaging and accessible as it is penetrating and rigorous Communism was once labeled the god that failed Like Christianity Communism involves faith in a superhuman endeavor conversion myth discipline and salvation and from the perspective of secular liberalism both are unjustified and false In recent years scholars have begun to investigate whether secularism is itself based on faith in a god that failed or is failing Nevertheless many still embrace such a faith finding in the spirit of democracy an ethos of eternal renewal Secular Faith enters and broadens this conversation interrogating secular faith in a global context tapping new theoretical resources and grappling provocatively with the tragedies and opportunities of today s profane pantheon of beliefs

Tracing the Contours of Faith Wayne Fehr, 2024-09-18 This book is addressed to Christian believers who are feeling the ambiguities and challenges of a life of faith Many of them may be uncertain about the meaning of the faith which they profess The familiar words that they hear in sermons and prayers seem at times to belong to a reality far removed from the actual world they live in They need to discover a meaning of their faith that they can relate to their own life experience and their general knowledge of the world This book is a collection of brief essays written in response to specific questions about the Christian faith s vision of reality The questions addressed here have arisen out of the experience of ordinary Christians trying to make sense of their faith Some are asking about particular Church words Some are expressing difficulties in believing Some are probing the paradoxes of Christian existence The author responds as a professional theologian and priest writing in a non technical way for fellow believers His purpose is to make the best insights of sound theology available to

them to minister to their faith life Although many of the essays are limited in scope there is a coherent understanding of the Christian faith that underlies all of them Each essay is simply articulating part of that understanding in response to a specific question *Radical Theology and Emerging Christianity* Katharine Sarah Moody, 2016-03-03 The theological turn in continental philosophy and the turn to Paul in political philosophy have occasioned a return to radical theology a tradition whose philosophical heritage can be traced to the death of God announced in the work of Nietzsche and Hegel John D Caputo s deconstructive theology and Slavoj Zizek s materialist theology are two radical theologies that explore what it might mean to pass through the death of God and to abandon this experience as specifically Christian *Radical Theology and Emerging Christianity* demonstrates how these theologies are transforming everyday religious practices through an examination of the work of Peter Rollins and Kester Brewin two figures at the radical margins of a contemporary expression of Western religiosity called emerging Christianity The author uses her analysis of all four figures to argue that deconstructive practices can enable religious communities to become part of a wider materialist collective in which the death of God continues to resonate Pushing the methodological boundaries of philosophy of religion by examining religious practices as the site of philosophical signification the book challenges scholars and practitioners alike to a new and more demanding dialogue between theory and practice
