Interface Criticism Christian Ulrik Andersen, Søren Bro Pold, 2011-01-12 From the screen of our laptops and from the ubiquitous portable devices smart phones and media players to the embedded computation in

clothes architecture and big urban screens interfaces are everywhere They are simultaneously demanding our attention and computing quietly in the background turning action into inter action and mediating our experience of and relations to the social and environmental But how can aesthetics respond to this and how do interfaces set the scene for artistic practices Interface Criticism is not another design manual but a critical investigation for readers interested in the aesthetic cultural and political dimensions of interfaces With contributions from leading researchers within the field the book covers a wide range of aesthetic expressions including urban screens wearable interfaces performances games net art software art and sound art and discusses how new cultures evolve around for example open source or live coding The volume critically investigates the aesthetics of interfaces in ways that transcend the iconic surface of the graphical user interface and goes beyond the buttons Ultimately the book develops interface aesthetics as an appropriate paradigm for a critical discussion of the computer **Federal Register** ,2013 **Commerce Business Daily** ,1997-12-31 **Soil Degradation and**

Restoration in Africa Rattan Lal,B. A. Stewart,2019-07-09 Soil degradation is a widespread problem in Africa resulting in decreased agricultural productivity while demand for food continues to increase Degradation is caused by accelerated erosion acidification contamination depletion of soil organic matter and plant nutrients and salinization The major cause of soil degradation in Africa is uncontrolled and excessive grazing in the savanna regions followed by deforestation and the use of inappropriate and extractive farming practices Perpetual neglect of the health of soils in Africa can exacerbate the already serious problems of food and nutritional insecurity and environmental degradation Food and nutritional security of the growing population of Africa can only be achieved if degraded soils are restored and soils of agroecosystems are managed prudently and sustainably Ignoring soils and taking the fragile finite and precious soil resources for granted is the principal cause of poverty hunger and environmental degradation The downward spiral must be reversed through soil restoration measures based on translating science into action This book describes the soils of Africa processes of soil degradation extent and severity of soil degradation and the impacts of degradation processes on food and nutritional security Features Explores the extent and severity of soil degradation in Africa Analyzes the cause effect relationship between anthropogenic activities and soil degradation Reviews processes of soil degradation in Africa including erosion salinization nutrient depletion and decline of soil organic matter Addresses the effect of climate change on soil degradation in Africa Explains how soil degradation causes food and nutritional insecurity Part of the Advances in Soil Sciences series this volume is specifically devoted to the processes and factors that cause soil degradation and the challenges and potential for remediation and restoration of soil health in Africa **Air University Library Index to Military Periodicals** ,1990 Fairplay Ports Guide ,1999 *Air Force Magazine* ,1987
