Gauteng Province Physical Sciences Paper September 2014:

Anatomy of a South African Karst Hydrosystem Philip J. Hobbs, Harrison Pienaar, Eddie van Wyk, Yongxin Xu, 2022-08-05
This book combines the results of the research activities in the assessment of water resources environment and an integrated water resource monitoring program to support preservation efforts of the aquatic environment of the Cradle of Humankind COH World Heritage Sites A poor understanding of the surface and groundwater resources of the COH property has precipitated often alarmist reporting in the media regarding the negative impacts associated with various sources of poor quality water The most notable of these is the acid mine drainage threat to karst ecosystems and fossil sites across the property These circumstances have generated wide and considerable concern for the preservation of the UNESCO inscribed fossil sites and integrity of the water resources of the property

The Changing Space Economy of City-Regions Koech Cheruiyot, 2017-10-30 This book addresses the South African Space Economy and its stark disparities and dualisms through an assessment of the Gauteng City Region the largest economic agglomeration in the country and on a continent bedevilled by a myriad of development challenges The book's focus on understanding the overall character of Gauteng City Region's Space Economy through data mining analysis and mapping comprehensively supplements the Space Economy literature on the region It covers the disparities exacerbated by an overlay of apartheid planning ideology and top down regional development based on selective encouragement of manufacturing investments in growth points or poles and how implementation of past policies intended to cure these disparities have yielded mixed results This book further offers the Gauteng City Region as a microcosm of the national economy in the form of evident significant placed based variations in the intensity and character of economic structure that on the one hand enjoys massive agglomeration economies while on the other has high levels of poverty and large numbers of people living below the Minimum Living Level This book should appeal to urban studies specialists economists and development studies researchers in the Global South

Waste Management and the Environment VIII C.A. Brebbia, H. Itoh, 2016-07-14 Waste Management and the Environment VIII contains papers present at the 8th International Conference on Waste Management and the Environment organised every two years by the Wessex Institute The contents were contributed by professionals researchers government departments and local authorities and cover the current situation of waste management Waste Management is one of the key problems of modern society due to the ever expanding volume and complexity of discarded domestic and industrial waste There is a need to establish better practices and safer solutions for waste disposal This requires further investigation into disposal methods and recycling as well as new technologies to monitor waste disposal sites clean technologies waste monitoring public and corporate awareness and general education Unfortunately many of the policies adopted in the past were aimed at short term solutions without regard to the long term implications on health and the environment leading in many cases to the need to take difficult and expensive remedial action The development of sustainable strategies is the preferred trend for Waste

Management The approach which has emerged as the most promising has been called 4Rs where reduction reuse recycling and recovery including the sale of waste as Secondary Raw Materials SRM and of Refuse Derived Fuel RDF are seen as the best actions This largely decreases the volume of waste that needs final disposal Contents cover such topics as Environmental impact Reduce reuse recycle and recovery 4Rs Waste incineration and gasification Energy from waste Industrial waste management Hazardous waste Agricultural waste Wastewater eWaste Landfill optimisation and mining Remote sensing Thermal treatment Emergent pollutants Environmental remediation Direct and indirect pre treatment of MSW Disposal of high level radioactive waste Legislation Behavioural issues
