*The Grammar Problem in Higher Education in Cameroon* Miriam Ayafor, 2015-06-18 This book describes the English grammar weaknesses manifested in the written work of young Cameroonians in tertiary education. It identifies the areas where the problems are most acute, seeks the reasons for such low grammar competences and suggests possible solutions to the problems. The Error Analysis Approach suggested by authors like S P Corder and J C Richards was used to carry out the study. The book will be of interest to all L2 learners and teachers of English to language policy makers of L2 English and to all those who wish to see that Standard British English is preserved to a greater extent in English speaking places outside

Britain despite the on going indigenisation of this global language

### **The Golden Age of Southern**

**Cameroons** Anthony Ndi, 2016-05-11 This book argues that since the emergence of the Cameroon National Union CNU and the one party state in 1966, Cameroonians have progressively degenerated into the syndrome of collective amnesia inspired by a culture of sycophancy glorifying and deifying political leadership. These developments stand in stark contrast to what obtained in the nascent Southern Cameroons, the UN Trust territory administered by Britain until 1961 when its population voted overwhelmingly by 70.5% to gain their independence by establishing a federation with the then French speaking Republic of Cameroon. From the late 1950s until the dismantling of the Cameroon Federation, Southern Cameroons and later West Cameroon had a vibrant parliament, a House of Chiefs or Senate, an independent Judiciary, an ideal corruption free Public Service, a state government with ministers presided over by an Executive Prime Minister, and for a decade West Cameroon provided the Vice Presidency for the Federal Republic of Cameroon. In what may be accurately described as Prof Anthony Ndi's seminal work, he contends and rightly so that solutions to the legion of problems that plague contemporary Cameroon may be easily found in the pages of *The Golden Age of Southern Cameroons*. Agents for this transformation do not have to be invented or imported from Mars; all we need is a patriotic spirit, political will, readiness to dialogue, transparency and commitment to democracy.

*The Precarity of Masculinity* Uroš Kovač, 2022-03-11 Since the 1990s, an increasing number of young men in Cameroon have aspired to play football as a career and a strategy to migrate abroad. Migration through the sport promises fulfillment of masculine dreams of sports stardom as well as opportunities to earn a living that have been hollowed out by the country's long economic stalemate. The aspiring footballers are increasingly turning to Pentecostal Christianity which allows them to challenge common tropes of young men as stubborn and promiscuous while also offering a moral and bodily regime that promises success despite the odds. Yet the transnational sports market is tough and unpredictable; it demands disciplined young bodies and introduces new forms of uncertainty. This book unpacks young Cameroonians' football dreams, Pentecostal faith obligations to provide and desires to migrate to highlight the precarity of

masculinity in structurally adjusted Africa and neoliberal capitalism      Global Citizenship Education Abdeljalil Akkari, Kathrine Maleq, 2020-08-18 This open access book takes a critical and international perspective to the mainstreaming of the Global Citizenship Concept and analyses the key issues regarding global citizenship education across the world In that respect it addresses a pressing need to provide further conceptual input and to open global citizenship agendas to diversity and indigeneity Social and political changes brought by globalisation migration and technological advances of the 21st century have generated a rise in the popularity of the utopian and philosophical idea of global citizenship In response to the challenges of today s globalised and interconnected world such as inequality human rights violations and poverty global citizenship education has been invoked as a means of preparing youth for an inclusive and sustainable world In recent years the development of global citizenship education and the building of students global citizenship competencies have become a focal point in global agendas for education international educational assessments and international organisations However the concept of global citizenship education still remains highly contested and subject to multiple interpretations and its operationalisation in national educational policies proves to be challenging This volume aims to contribute to the debate question the relevancy of global citizenship education s policy objectives and to enhance understanding of local perspectives ideologies conceptions and issues related to citizenship education on a local national and global level To this end the book provides a comprehensive and geographically based overview of the challenges citizenship education faces in a rapidly changing global world through the lens of diversity and inclusiveness      *A Next-Generation of Biomonitoring to Detect Global Ecosystem Change* David Andrew Bohan, Dominique Gravel, Alireza Tamaddon-Nezhad, Corinne Vacher, Stéphane Robin, 2020-09-18 This eBook is a collection of articles from a Frontiers Research Topic Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series they are collections of at least ten articles all centered on a particular subject With their unique mix of varied contributions from Original Research to Review Articles Frontiers Research Topics unify the most influential researchers the latest key findings and historical advances in a hot research area Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office frontiersin.org/about/contact      **Counter-Terrorism Laws and Freedom of Expression** Paul Haridakis, Téwodros Workneh, 2021-06-22 As nations have aggressively implemented a wide range of mechanisms to proactively curb potential threats terrorism Counter Terrorism Laws and Freedom of Expression Global Perspectives offers critical insight into how counter terrorism laws have adversely affected journalism practice digital citizenship privacy online activism and other forms of expression While governments assert the need for such laws to protect national security critics argue counter terrorism laws are prone to be misappropriated by state actors who use such laws to quash political dissent target journalists and restrict other forms of citizen expression The book is divided into three parts Part I deals with the politics and discourse of counter terrorism laws Part II focuses on the ways counter terrorism laws have impacted journalistic practice in different

**Online Access to GCE Results 2011** Northern Ireland Council for the Curriculum, Examinations and Assessment, 2011 The Cameroon GCE Crisis Francis B. Nyamnjoh, Richard Fonteh Akum, 2008 This book documents the battles fought by the Anglophone community in Cameroon to safeguard the General Certificate of Education GCE a symbol of their cherished colonial heritage from Britain from attempts by agents of the Ministry of National Education to subvert it These battles opposed a mobilised and determined Anglophone civil society against numerous machinations by successive Francophone dominated governments to destroy their much prized educational system in the name of national integration When Southern Cameroonians re united with La Republique du Cameroun in 1961 they claimed that they were bringing into the union a fine education system from which their Francophone compatriots could borrow Instead they found themselves battling for decades to save their way of life Central to their concerns and survival as a community is an urgent need for cultural recognition and representation of which an educational system free of corruption and trivialisation through politicisation is a key component
