Grade 1life Orientation Caps November 2014:

Social Im/mobilities in Africa Joël Noret, 2019-11-08 Grounded in both theory and ethnography this volume insists on taking social positionality seriously when accounting for Africa's current age of polarizing wealth. To this end the book advocates a multidimensional view of African societies in which social positions consist of a variety of intersecting social powers or capitals including wealth, education, social relationships, religion, ethnicity and others. Accordingly the notion of social im/mobilities emphasizes the complexities of current changes taking us beyond the prism of a one-dimensional social ladder for social moves cannot always be apprehended through the binaries of gains and losses. **OECD Economic Surveys: Luxembourg 2019** OECD, 2019-07-10 Luxembourg is one of the most prosperous economies in the OECD. However prosperity and quality of life cannot be taken for granted. This Survey focuses on three main challenges. The first concerns housing, strong population growth and supply constraints have made prices surge which worsens affordability and creates vulnerabilities for some households and some banks.
