The Status Revolution Chuck Thompson, 2024-01-30 How did rescue dogs become status symbols Why are luxury brands losing their cachet What's made F Scott Fitzgerald's most famous observations obsolete The answers are part of a new revolution that's radically reorganizing the way we view ourselves and others Status was once easy to identify fast cars fancy shoes sprawling estates elite brands But in place of Louboutins and Lamborghinis the relevance of the rich famous and gauche is waning and a riveting revolution is underfoot Why do dog owners boast about their rescues but quietly apologize for their purebreds Why do people brag about their grinding workweeks Why are so many billionaires anxious to give some of their money away rather than hoard it In The Status Revolution Chuck Thompson dubbed savagely funny by The New York Times and wickedly entertaining by the San Francisco Chronicle sets out to determine what status means today and learns that what was once considered the low life has become the high life In The Status Revolution Thompson tours the new world of status from a small community in British Columbia where an indigenous artist uses wood carving to restore communal status to a Washington DC meeting of the Patriotic Millionaires a club of high earners who are begging the government to tax them to a luxury auto factory in the south of Italy where making beautiful cars is as much about bringing dignity to a low earning region than it is about flash and indulgence to a London lab where the neural secrets of status are being unlocked This isn't a book about designer brands or orgies of overindulgence Thompson writes Even if I cared about them the preferences of the rich famous and gauche have already been covered more exhaustively than a guy in my tax bracket could ever hope to fake With his signature wit and irreverence
