Oil Powers Victor McFarland, 2020-07-14 Since the mid twentieth century the United States and Saudi Arabia have built a close but often troubled alliance In this critical history Victor McFarland reveals the deep ties binding the leaders of the two nations Connecting foreign relations and domestic politics McFarland challenges the view that the U S Saudi alliance is the inevitable consequence of American energy demand and Saudi Arabia s huge oil reserves Oil Powers traces the growth of the alliance through a dense web of political economic and social connections that bolstered royal and executive power and the national security state McFarland shows how U S and Saudi elites collaborated to advance their shared interests against rivals at home and abroad During the 1970s as higher oil prices enriched the Saudi government destabilized the American economy and changed the balance of power in the Middle East leaders of both countries responded by consolidating their alliance Facing objections from their own people Washington and Riyadh chose to shield their partnership from public oversight and accountability While American support empowered the Saudi royal family and helped the kingdom expand its influence across the Middle East Saudi elites also encouraged a rightward shift in U S foreign and economic policy with profound long term effects Oil Powers reveals the role of the U S Saudi alliance in laying the groundwork for American military involvement in the Middle East and the entrenchment of a global order fueled by oil

Greedy Bastards Dylan Ratigan, 2012-01-10 The host of the eponymous MSNBC show Dylan Ratigan offers a bold and original post partisan program to resuscitate the American Dream At a time of deep concern with the state of America s economy and government it seems that all the media can give us is talking or screaming heads who revel in partisan brinkmanship Then there s Dylan Ratigan an award winning journalist respected and admired across the political spectrum In Greedy Bastards he rips the lid off of our deeply crooked system and offers a way out Employing the nuanced reporting and critical analysis that have earned him so much respect Ratigan describes the five vampires that are sucking the nation dry including an educational system that values mediocrity above all else a healthcare system that is among the priciest and least effective infrastructures in the industrialized world a political system in which lobbyists write legislation a master slave relationship with our Chinese bankers and an addiction to foreign oil that has sapped our willingness to innovate In offering solutions to these formidable and entrenched obstacles he does nothing less than lay the groundwork for a political movement dedicated to tackling the rot at the heart of the country In its desperation America needs more than just endless stock tips and Wall Street navel gazing It needs passionate debate and smart policy and a hero to take on the establishment Dylan Ratigan is that hero and this is the book that will rally people behind him

Moving Health Sovereignty in Africa Andrew F. Cooper, Hany Besada, 2016-04-15 Today s era of intense globalization has unleashed dynamic movements of people pathogens and pests that overwhelm the static territorial jurisdictions on which the governance provided by sovereign states and their formal intergovernmental institutions is based This world of movement

calls for new ideas and institutions to govern people's health above all in Africa where the movements and health challenges are the most acute This book insightfully explores these challenges in ways that put the perspectives of Africans themselves at centre stage It begins with the long central and still compelling African health challenge of combating the pandemic of HIV AIDS It then examines the global governance responses by the major multilateral organizations of the World Bank and the World Trade Organization and the newer informal flexible democratically oriented ones of the Group of Eight It also addresses the compounding health challenge created by climate change to assess both its intensifying impact on Africa and how all international institutions have largely failed to link climate and health in their governance response It concludes with several recommendations about the innovative ideas and institutions that offer a way to closing the great global governance gaps and thus improving Africans health and that of citizens beyond

Sustaining Industrial Competitiveness after the Crisis L. Ciravegna, 2012-05-22 Adopting a multi disciplinary approach and using the case of the automotive industry as a starting point this volume discusses how industrial companies can remain competitive in spite of the current economic downturn

Coasts and Estuaries Eric Wolanski, John W. Day, Michael Elliott, Ramachandran Ramesh, 2019-01-24 Coasts and Estuaries The Future provides valuable information on how we can protect and maintain natural ecological structures while also allowing estuaries to deliver services that produce societal goods and benefits These issues are addressed through chapters detailing case studies from estuaries and coastal waters worldwide presenting a full range of natural variability and human pressures Following this a series of chapters written by scientific leaders worldwide synthesizes the problems and offers solutions for specific issues graded within the framework of the socio economic environmental mosaic These include fisheries climate change coastal megacities evolving human nature interactions remediation measures and integrated coastal management The problems faced by half of the world living near coasts are truly a worldwide challenge as well as an opportunity for scientists to study commonalities and differences and provide solutions This book is centered around the proposed DAPSI W R M framework where drivers of basic human needs requires activities that each produce pressures The pressures are mechanisms of state change on the natural system and Impacts on societal welfare including well being These problems then require responses which are the solutions relating to governance socio economic and cultural measures

Scharin et al 2016 Covers estuaries and coastal seas worldwide integrating their commonality differences and solutions for sustainability Includes global case studies from leading worldwide contributors with accompanying boxes highlighting a synopsis about a particular estuary and coastal sea making all information easy to find Presents full color images to aid the reader in a better understanding of details of each case study Provides a multi disciplinary approach linking biology physics climate and social sciences

Asia-Pacific roadmap for primary forest conservation Laumonier, Y., Azzu, N., Azdan, G., Narulita, S., Khikmah, F., Meybeck, A., Pingault, N., Gitz, V., 2022-08-12 The purpose of the roadmap is to delineate and inform the process by which decision makers and actors can evaluate the status diversity and trends of primary forests in the

region identify priority areas for primary forest conservation assess the threats they face and explore possible ways to address them This report suggests a practical process in four steps through which the recommendations can be articulated at different scales from regional to local and adapted to the specific context priorities and needs of various forest types countries and categories of actors
