professionals to relook into Operational Excellence from a very fundamental level and then build their own way of achieving quick and dramatic growth on an ongoing basis In fact no industry is untouched by the type of changes taking place due to the New Normal although at different and varying intensity The Path is therefore as much applicable to a well matured commodity business as it is to the one in the new product intensive Hi tech industry As a book The Path is also unique in the way it was created In fact it was co created by over 100 professionals online These professionals from different industries have provided insights from their years of experience in making organizations more effective And in doing so they have offered a direction to dramatically improving the way organizations need to operate in today s world **Mountain tourism**
