Green, 2008-03-20 Making Women's Medicine Masculine challenges the common belief that prior to the eighteenth century men were never involved in any aspect of women's healthcare in Europe Using sources ranging from the writings of the famous twelfth century female practitioner Trotula of Salerno all the way to the great tomes of Renaissance male physicians and covering both medicine and surgery this study demonstrates that men slowly established more and more authority in diagnosing and prescribing treatments for women's gynaecological conditions especially infertility and even certain obstetrical conditions Even if their hands on knowledge of women's bodies was limited by contemporary mores men were able to establish their increasing authority in this and all branches of medicine due to their greater access to literacy and the knowledge contained in books whether in Latin or the vernacular As Monica Green shows while works written in French Dutch English and Italian were sometimes addressed to women nevertheless even these were often re-appropriated by men both by practitioners who treated women and by laymen interested to learn about the secrets of generation While early in the period women were considered to have authoritative knowledge on women's conditions hence the widespread influence of the alleged authoress Trotula by the end of the period to be a woman was no longer an automatic qualification for either understanding or treating the conditions that most commonly afflicted the female sex with implications of women's exclusion from production of knowledge on their own bodies extending to the present day

*Well-Behaved Women Seldom Make History* Laurel Thatcher Ulrich, 2008-09-23 From admired historian and coiner of one of feminism's most popular slogans Laurel Thatcher Ulrich comes an exploration of what it means for women to make history In 1976 in an obscure scholarly article Ulrich wrote Well behaved women seldom make history Today these words appear on t-shirts mugs bumper stickers greeting cards and all sorts of Web sites and blogs Ulrich explains how that happened and what it means by looking back at women of the past who challenged the way history was written She ranges from the fifteenth century writer Christine de Pizan who wrote *The Book of the City of Ladies* to the twentieth century's Virginia Woolf author of *A Room of One's Own* Ulrich updates their attempts to reimagine female possibilities and looks at the women who

didn't try to make history but did. And she concludes by showing how the 1970s activists who created second wave feminism also created a renaissance in the study of history.

*How Women Make Money* Julie V. Watson, 2004-04 *How Women Make Money* is a twofold exploration into the entrepreneurial spirit of Canadian women from all walks of life. It is the story of women who have realized that their paths are not pre-determined, whose experiences are united with vision and sense of purpose, and who continue to challenge their own ideas and others' presumptions of what their lives should look like. It is also a guide to building both business smarts and character. Julie Watson, an entrepreneur herself, delivers the goods: good planning, good guidelines, good business acumen, offering practical advice on such things as matching personal goals with business goals, developing old skills and learning new ones, using past experiences to infuse new passions, and balancing vision and bookkeeping. The road to self-employment is paved with self-discovery.

**Woman's Record; or, sketches of all distinguished women from the Creation to A.D. 1854 ... Second edition** Sarah Josepha Buell Hale, 1853

**Women in Christ** Michele M. Schumacher, 2004. The challenge of promoting the new feminism has barely been addressed since it was first launched by Pope John Paul II in his 1995 encyclical *Evangelium vitae*. The thirteen contributors in this book, all outstanding international scholars, take up this task together, laying the necessary theoretical foundation for the new feminism. These chapters articulate an integral philosophical and theological understanding of persons that moves beyond patriarchy on the one hand and traditional feminism on the other. Central to the new perspective offered here is the biblical revelation of the human person, man and woman in Christ, a vision that directs women beyond the male standard against which they have too often been measured. Far from constraining women to an eternal essence, the dynamic view presented here encourages each woman to realize herself in perfect Christian freedom.

Dictionaries are a powerful genre perceived as authoritative and objective records of the language impervious to personal bias But who makes dictionaries shapes both how they are constructed and how they are used Tracing the craft of dictionary making from the fifteenth century to the present day this book explores the vital but little known significance of women and gender in the creation of English language dictionaries Women worked as dictionary patrons collaborators readers compilers and critics while gender ideologies served at turns to prevent secure and veil women s involvements and innovations in dictionary making Combining historical rhetorical and feminist methods this is a monumental recovery of six centuries of women s participation in dictionary making and a robust investigation of how the social life of the genre is influenced by the social expectations of gender      *Changes 3 Teacher's Book* Jack C.
