Abadir, T. Ambler, 2013-06-29 The general understanding of design is that it should lead to a manufacturable product Neither the design nor the process of manufacturing is perfect As a result the product will be faulty will require testing and

fixing Where does economics enter this scenario Consider the cost of testing and fixing the product If a manufactured product is grossly faulty or too many of the products are faulty the cost of testing and fixing will be high Suppose we do not like that We then ask what is the cause of the faulty product There must be something wrong in the manufacturing process We trace this cause and fix it Suppose we fix all possible causes and have no defective products We would have eliminated the need for testing Unfortunately things are not so perfect There is a cost involved with finding and eliminating the causes of faults We thus have two costs the cost of testing and fixing we will call it cost 1 and the cost of finding and eliminating causes of faults call it cost 2 Both costs in some way are included in the overall cost of the product If we try to eliminate cost 1 cost 2 goes up and vice versa An economic system of production will minimize the overall cost of the product Economics of Electronic Design Manufacture and Test is a collection of research contributions derived from the Second Workshop on Economics of Design Manufacture and Test written for inclusion in this book **The Horseless Age** ,1917 Code of Federal Regulations, Title 49, Transportation, PT. 1200-End, Revised as of October 1, 2010 U S Office of the Federal Register,2010-12-23 The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the United States Federal Government Railway Locomotives and Cars ,1927 *Code of Federal Regulations, Title 49, Transportation, Pt. 1200-End, Revised As of October 1 2012* U S Office of the Federal Register,2012-12-27 **Code of Federal Regulations, Title 49, Transportation, Pt. 1200-End, Revised as of October 1, 2009** Office of the Federal Register,2009-12-23 **The Commercial Car Journal** ,1923 Code of Federal Regulations 49 Transportation Parts 1200 to End ,2006 The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the United States Federal Government Federal Register ,1978 *A Subject Bibliography from Highway Safety Literature* United States.
