comedian and environmental economist with a PHD in climate change policy which means he's the sort of doctor who will rush to your side if you fall ill on a plane but only to berate you for flying. We are currently facing a global climate emergency. You've probably noticed. But why does the end of the world need to be so depressing? **HOT MESS** aims to both lighten the mood and enlighten readers on climate change. This is a book for people who care about climate change but aren't doing much about it, helping readers understand what the main causes of climate change are, what changes are needed, and what they can and cannot do about it. But most importantly, it is a book that'll help people find the comedy in climate change because if we can do that well, we can do bloody anything. Climate change is no laughing matter, oh yes, it is, with Matt Winning's superb hilarious side-splitting book that makes you take a whole new look at the climate crisis, surviving, having children, and life in general. Mark Maslin, author of *How to Save Our Planet*, the first book about climate change that made me laugh out loud. If you've been too freaked out to subject yourself to the climate crisis, *Hot Mess* is the kick in the pants you need to start making yourself useful.
