driving for all skill levels *Getting to Know Me* John Henry Croom III, 2012-05-22 John H Croom III is a retired chief executive of one of the nation's largest natural gas companies. In his autobiography *Getting to Know Me* he relates stories of his family and childhood in his native North Carolina, his decision to be a professional engineer, and events throughout his adult working life that took him north for almost fifty years before retiring to his native state. Of special note, he expands on the interplay of marketing, competition, regulation, and politics in the natural gas business. His book concludes with his reflections on forces and natural occurrences that shaped his life, his career, and his retirement.

Drive to Survive Chris Daly, 2020-03-12 *Drive to Survive: The Art of Wheeling the Rig* provides an in-depth examination of fire apparatus vehicle dynamics. This is not your average driver training textbook. Fire apparatus operators must understand how a vehicle maneuvers at roadway speed and, more importantly, why it crashes. Just as a doctor cannot heal the human body without a thorough understanding of anatomy and physiology, an emergency vehicle operator cannot safely drive a fire apparatus without an in-depth knowledge of vehicle dynamics. *Drive to Survive* goes beyond talking about pump operations, aerial operations, and preventative maintenance; it fills in the gaps between vehicle dynamics and crash causation. After 15 years of training and research, Chris Daly developed a training program combining his fire service and crash reconstruction training experience. This book provides an in-depth knowledge of topics required in the following NFPA standards: NFPA 1002 Standard for Fire Apparatus Driver/Operator Professional Qualifications, NFPA 1451 Standard for Fire and Emergency Service Vehicle Operations Training Programs, NFPA 1500 Standard on Fire Department Occupational Health and Safety Program. Fire apparatus operators will learn the limits of driving an emergency vehicle and will understand that no matter how long they have been driving or how good they think they are, at some point physics will take over and the vehicle will lose control. We can reduce the number of emergency vehicle crashes throughout the world by addressing key issues and providing emergency vehicle operations course EVOC instructors with methods to convey these concepts. Concepts you learn in this book relate to more than just driving a fire apparatus. These principles apply to anyone who drives a vehicle, including your family members and loved ones.
