based on the famous HP 42S RPN Scientific the most powerful programmable RPN calculator industrially built so far. Additionally we put in the functions of the HP 16C, the HP 32SII and the HP 21S. Furthermore we added numerous useful functions for mathematics, statistics, physics, engineering, programming, I/O etc. such as many statistical distributions and their inverses, Euler's Beta and Riemann's Zeta functions, Bernoulli and Fibonacci numbers, Lambert's W, the error function and the Chebyshev, Hermite, Laguerre and Legendre orthogonal polynomials, forget heavy table books, programmable sums and products, first and second derivatives, integer computing in fifteen bases from binary to hexadecimal, bidirectional serial communication with your computer, battery fail safe on board, backup memory, 88 conversions mainly from old Imperial to universal SI units and vice versa, 50 fundamental physical constants plus a selection of important numbers from mathematics, astronomy and surveying, Greek and extended Latin letters plus mathematical symbols and a stopwatch based on a real time clock with hardware. Added WP 34S is the first RPN calculator offering you a choice of two stack sizes: traditional 4 stack levels for HP compatibility, 8 levels for convenient calculations in complex domain, advanced real calculus, vector algebra in 4D or for whatever application you have in mind. WP 34S features up to 107 global registers, 112 global flags, up to 928 program steps in RAM, up to 6014 program steps in flash memory, a 30 byte alpha register, 16 local flags as well as up to 144 local registers allowing for recursive programming and 4 user programmable hotkeys. Most of the memory layout is conveniently settable by you. This is the newest edition of the manual containing 404 pages. Compared to previous editions, one section, three chapters and numerous examples were added, easing your path to the over 700 functions of your WP 34S. It also includes everything you want to know about flashing, updating and tuning your WP 34S. This is the true and original WP 34S reference, written by one of the two initiators of this project. Recommended for any serious science or engineering student as well as for professionals in these areas. WP 34S reached its present state growing on our love for Hewlett Packard's vintage Classics, Woodstocks, Spices, Nuts, Voyagers and Pioneers. WP 34S has proven success in real world applications, being on the market since 2011. It has got a little brother, the WP 31S, described elsewhere. Please see http://www.hpmuseum.org/forum/forum_8.html for more information about our further progress in this matter. Last update of the print: 2016-06-06.

Development of Workshop and Manual for Use of the Casio-fx-300v Scientific Calculator, Teresa Klahre, 1995.

An Aeronautical Engineering User's Manual to the HP-28S Handheld Calculator, 1991. Handheld calculators are now powerful enough to have become indispensable tools for the engineer and scientist. With enhanced equation solving capability and extensive user memory, the HP 28S introduces exciting new possibilities. The entire set of tables for one dimensional gas dynamics can be accessed with unequalled accuracy and speed. But this enhanced power cannot be properly tapped without a pre-planned user directory organization which takes advantage of the HP 28S internal structure. Experience

has shown that many students buy expensive programmable calculators but underuse them finding their powerfulness baffling and frustrating They employ the same computational techniques with sophisticated 200 continuous memory programmable machines as could be accomplished with a simple 20 scientific calculator This manual contains a compendium of useful formulae programming and computational techniques for the popular HP 28S Pocket Calculator In addition to helpful instructions on units conversion directory organization and problem solving methodology which will benefit any HP 28S user the Aeronautical Engineering student will find sections on Thermodynamics Aerodynamics and Controls which will prove useful in those fields of study *The HP-33E Programmable Scientific Calculator Owner's Handbook and Programming Guide* Hewlett-Packard Company,1978
