Part-I: Reading Test (60 marks)

Read the passage carefully and answer the following questions:

The term 'diaspora' is used to refer to people who have left their homelands and settled in other parts of the world, either because they were forced to do so or because they wanted to leave on their own. The word is increasingly used for such people as a collective group and/or a community. The world has seen many diasporas but scholars have been studying the phenomenon with great interest only in recent decades.

Among the great diasporas of history is that of the Jewish people, who were forced to leave their lands in ancient times. The movement of Aryans from Central Europe to the Indian sub-continent thousands of years ago is also a noteworthy diaspora, although the causes of this diaspora are unclear. In twentieth century history, the Palestinian diaspora has attracted a lot of attention and been a cause of concern for world leaders because of the plight of Palestinians. There have been massive diasporas in Africa, too, over the centuries, either because of war or because of the ravages of nature. But the chief reason why the phenomenon of diaspora is attracting so much attention now is globalization.

[Unit-11; Lesson-1]

1.A. Choose the correct answer from the alternatives: 1×5 = 5

a. **What does diaspora mean?**

Cambridge Checkpoints HSC Advanced English 2017 Melpomene Dixon, Kate Murphy, Amy Hughes, 2016-06-28 HSC Golden Guide to English Wafa Khan, 2017-02-05 HSC Golden Guide to English Advanced is a textbook designed to teach students how to craft Band 6 level responses in English. The textbook is modelled on the highly successful educational method of example based learning. Each piece of guidance provided in the textbook is supported by Band 6 examples using prescribed texts from the 2018 Year 12 Advanced English syllabus so that students may see and learn for themselves how to improve their writing. The 250 pages textbooks are divided into three sections: Practical Skills including guides to essay preparation, essay writing, adapting to exam questions, writing in different formats such as speech and supporting workbook exercises; Discovery including syllabus deconstruction and clarification, creative writing, responding to short answer questions; 2018 Discovery texts, adapting to Discovery exam questions and supporting workbook exercises; Modules A B C including syllabus deconstruction and clarification; 2018 Modules texts, adapting to Modules exam questions and supporting workbook exercises. **Excel Essential Skills** Derek Lewis, 2004 Reforming Literature Education in Malaysia 1957 – 2020 Jia Wei Lim, 2024-08-12 Lim traces the complexities in construction and implementation of a school subject namely Literature in English in Malaysia through a focused and grounded narrative where tensions regarding identity, reader response and conceptualisations about literature play out in a postcolonial context. The book demonstrates the need to think about school subjects as abstract concepts negotiated at various levels be it during curriculum construction or in the classroom. These conceptualisations of the subject are further influenced by contemporary concerns and sociopolitical changes over time. As such the scope of this book ranges from pre independence Malaysia then Malaya from the 1950s till the current phase of the subject's development in the 21st century. The volume illustrates the complex interplay of historical, cultural and social influences on the conceptualisation of English literature as a school subject in Malaysia. Lim traces, examines and interprets its development as an elective subject in the context of post secondary Malaysian education and engages with current trends in education such as internationalization and standardized assessment. Lim also highlights the importance of teacher and student lived experiences to argue that personal conceptualisations of the school subject are actualized and negotiated in classroom discourse. Offering unique insights into studying Literature in English in a postcolonial context, the book will appeal to researchers, students and practitioners in the fields of history of education, curriculum reform and literature education. *Charting an Asian Trajectory for Literacy Education* Su Li Chong, 2021-03-14 Weaving outwards from a centripetal force of biographical stances, this book presents the collective perspectives of literacy researchers from Brunei, China, Hong Kong, Malaysia, Singapore, the Philippines and Taiwan. It

represents the first all Asian initiative to showcase the region's post colonial multilingual and multicultural narratives of literacy education. This book provides a much needed platform that initiates important conversations about literacy as a sociocultural practice in a region that is both challenged and shaped by sociocultural influence unique to Asia's historical and geopolitical trajectory. Driven by the authors' lived experiences of becoming literate as well as their empirical research work in later years, each chapter brings decades of biographical narratives and collective empirical research findings to bear. Within the book are negotiations about literacy across and within home and school contexts, transactions of literature, text and reader, and considerations of the literacy policy practice nexus. These trajectories, while divergent in their issues, come together as shared lived experience located in local contexts, considered through global perspectives. As Asia looks set to become the 21st century's new economic and labour force, the need to understand the sociocultural milieu of this region cannot be understated. This book on literacy education in Asia contributes to the larger narrative.

Postcolonial George Eliot Oliver Lovesey, 2017-08-17. This book examines the range of the colonial imaginary in Eliot's works from the domestic and regional to ancient and speculative colonialisms. It challenges monolithic hegemonic views of George Eliot whose novelistic career paralleled the creation of British India and also dismissals of the postcolonial as ahistorical. It uncovers often overlooked colonized figures in the novels. It also investigates Victorian Islamophobia in light of Eliot's impatience with ignorance, intolerance and xenophobia as well as her interrogation of the make-believe of endings. Drawing on a range of sources from Eugène Bodichon's Algerian anthropological texts, the Persian journals of John Martyn and postmodern re-engagements, Postcolonial George Eliot has implications for an
