Lagopoulos, Karin Boklund-Lagopoulou, 2020-11-23 The book is an in depth presentation of the European branch of semiotic theory originating in the work of Ferdinand de Saussure It has four parts a historical introduction the analysis of language narrative theory and communication theory Part I briefly presents all the semiotic schools and their main points of reference Although this material is accessible in many other Anglophone publications the presentation is marked by specific choices aiming to display similarities and differences The analysis of language in Part II is also available in Anglophone bibliography but the book presents Saussurean theory according to a new theoretical rationale and enriched with later developments In addition it is orientated so as to offer the foundation for the part that follows Part III is a presentation of Greimasian narrative theory well documented in Francophone bibliography but poorly represented in Anglophone publications The presentation extends the theory in both a qualitative and a new quantitative direction and includes a great number of

examples and two extended textual analyses to help the reader understand and apply it Part IV communication theory combines an extension of Greimasian sociosemiotics with other schools of thought This original theoretical section discusses fourteen consecutive communication models the synthesis of which results in a holistic social semiotic theory of communication American Poetry after Modernism Albert Gelpi, 2015-03-09 Albert Gelpi's *American Poetry after Modernism* is a study of sixteen major American poets of the postwar period from Robert Lowell to Adrienne Rich Gelpi argues that a distinctly American poetic tradition was solidified in the later half of the twentieth century thus severing it from British conventions In Gelpi's view what distinguishes the American poetic tradition from the British is that at the heart of the American endeavor is a primary questioning of function and medium The chief paradox in American poetry is the lack of a tradition that requires answering and redefining redefining what it means to be a poet and likewise how the words of a poem create meaning offer insight into reality and answer the ultimate questions of living Through chapters devoted to specific poets Gelpi explores this paradox by providing an original and insightful reading of late twentieth century American poetry
