

Task 1: Knowledge/Understanding questions

1. Expand and simplify the following powers. Give all of the answers in terms of positive exponents.

$$a) (3a^2b^3)^7 - 3a^2b^3(3a^2b^3)^2$$

$$= (3a^2b^3)^7 - 3a^2b^3(3)$$

$$= 432a^4 + 7b^{21}$$

$$= 432a^{14}b^7$$

$$b) \left(\frac{2}{3}\right)^{10}3a^2$$

$$= \left(\frac{2^{10}a^2}{3^{10}a^2}\right)$$

$$= \frac{2^{10}a^2}{3^{10}a^2}$$

$$c) (-45)(1) + 64^{-1} + (2^2)(1)$$

$$= (-45)(1) + 64^{-1} = 64$$

$$= \frac{-45}{1} + \frac{1}{4} + \frac{64}{1}$$

$$= \frac{-180}{4} + \frac{1}{4} + \frac{256}{4}$$

$$= \frac{77}{4}$$

$$= 19.25$$

$$d) 3(2a-3)(2a+3)$$

$$= 6(2a-3)(2a+3) \text{ add the exponents}$$

$$= 6(12a^2 + 12a - 6a - 9)$$

$$= 6(12a^2 + 6a - 9)$$

The exponent on 3 should be 7a+1

$$e) \frac{2^{2a} \sqrt{x-4}}{3^{2a} \sqrt{x+4}}$$

$$= 2^{-3a(2a-7a+7a)(x-4)}$$

$$= 2^{4a^2 - 4b}$$

2. Evaluate $\log_5 625$ using the following methods. Give

- a. by switching from logarithmic to exponential form

$$x = \log_5 625$$

$$5^x = 625$$

$$x = 4$$

International Legal Responsibility of International Organizations in the ILC Draft Articles and Beyond Sarah Bayani, 2022 The phenomenon of proliferation of international organizations has urged focus on the responsibility of international organizations under international law as the effect of their activities is witnessed everywhere in our daily life The main purpose of the present book is to examine and review some specific aspects relevant to the question of international legal responsibility of international organizations mainly with a view to assessing the International Law Commission's work on the codification of the international legal rules applicable on international organizations in this area At the same time the intention is to address the major challenge to the codification of general rules for international organizations namely their wide varying nature and their differences from each other Furthermore the perspective has been enlarged by elaborating on the broader concept of accountability of international organizations Record of Proceedings, 1991

Public International Law Sué González Hauck, Raffaella Kunz, Max Milas, 2024-03-15 Public International Law A Multi Perspective Approach is a comprehensive yet critical introduction to the diverse field of public international law Bringing together a unique range of perspectives from around the world and from different theoretical approaches this textbook introduces both the overarching questions and doctrines of public international law as well as the specialised sub fields These include emerging fields such as international law in cyberspace international migration law and the international climate regime The book includes numerous case examples references to debates and controversies in the literature and focus sections addressing topics in more depth Featuring an array of pedagogical features including learning objectives suggested further reading and resources and QR codes to interactive exercises this book is ideal for students studying this field for the first time and also offers something new for students who would like to deepen their knowledge via a diverse and engaging range of perspectives The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution ShareAlike CC BY SA 4.0 License Lasers & Applications, 1982

The Principle of Systemic Integration Gabriel Orellana Zabalza, 2012 This dissertation analyzes whether or not the principle of systemic integration as expounded in Article 31.3 c of the Vienna Convention on the Law of Treaties contributes to attainment of a coherent international legal system For this purpose the book considers three general ideas the unity of the international legal system and fragmentation the general rule on treaty interpretation and the principle of systemic integration and the role of systemic integration in the achievement of coherence Each one involves specific issues and considerations which ultimately assist in addressing the main question as to the usefulness of the principle in the curtailment of fragmentation in the international legal system Dissertation Series Cologne Studies in International and European Law Kolner Schriften zum internationalen und europäischen Recht Vol 24 *General International Law Before Human Rights Courts* Frédéric Vanneste, 2010 This book analyzes how the European Court of Human Rights ECtHR and the Inter American

Court of Human Rights IACtHR deal with general international law In light of the concerns of various authors about the fragmentation of international law and the human rightist aspirations of human rights law the question arises whether these human rights courts put the unity of general international law into danger The main idea of this study is that the ECtHR and the IACtHR may in principle only elaborate and not depart from or contradict general international law A departure is only acceptable if a clear *lex specialis* has been established for human rights law The author researches whether or not the sometimes different case law of both human rights courts fits into this assumption Almost all topics of general international law that have been dealt with by the ECtHR and IACtHR are analyzed including reservations application of treaties *ratione temporis* *ratione loci* and r Advanced Engineering Mathematics James Alan Cochran,H. The Software Encyclopedia ,1988 *Irresolvable Norm Conflicts in International Law* Valentin Jeutner,2017-08-04
Conventionally international legal scholarship concerned with norm conflicts focuses on identifying how international law can or should resolve them This book adopts a different approach It focuses on identifying those norm conflicts that law cannot and should not resolve The book offers an unprecedented controversial yet sophisticated argument in favour of construing such irresolvable conflicts as legal dilemmas Legal dilemmas exist when a legal actor confronts a conflict between at least two legal norms that cannot be avoided or resolved Addressing both academics and practitioners the book aims to identify the character and consequences of legal dilemmas to distil their legal function within the sphere of international law and to encourage serious theoretical and practical investigation into the conditions that lead to a legal dilemma The first part proposes a definition of legal dilemmas and distinguishes the term from numerous related concepts Based on this definition the second part scrutinises international law s contemporary norm conflict resolution and accommodation devices in order to identify their limited ability to resolve certain kinds of norm conflicts Against the background of the limits identified in the second part the third part outlines and evaluates the book s proposed method of dealing with legal dilemmas In contrast to conventional approaches that recommend dealing with irresolvable norm conflicts by means of non liquet declarations judicial law making or a balancing test the book s proposal envisions that irresolvable norm conflicts are dealt with by judicial and sovereign actors in a complementary fashion Judicial actors should openly acknowledge irresolvable conflicts and sovereign actors should decide with which norm they will comply The book concludes with the argument that analysing various aspects of international law through the concept of a legal dilemma enhances its conceptual accuracy facilitates more legitimate decision making and maintains its dynamic responsiveness **Research Handbook on Intelligence and International Law** Russell Buchan,Iñaki Navarrete,2025-07-15 The Research Handbook on Intelligence and International Law brings together expert scholars and practitioners to comprehensively assess how international law applies to the work of the intelligence community In doing so the Research Handbook covers various rules of international law including the law of State responsibility and the principles of sovereignty non intervention and non use of force as well as specialised regimes
