**Arthashastra** Kautilya's Arthashastra Medha Bisht, 2019-08-16 This book examines in detail the strategic relevance of the Arthashastra. Attributed to the fourth century B C, this classical treatise on state and statecraft rests at the intersection of political theory and international relations. Adopting a hermeneutic approach, the book discusses certain homologies related to concepts such as power, order, and morality. Underlining the conceptual value of the Arthashastra and classical texts such as Hitopdesha and Pancatantra, this volume highlights the non-western perspectives related to diplomacy and statecraft. It shows how a comparative analysis of these texts reveals a continuity rather than a change in the styles, tactics, and political strategies. The book also showcases the value these ancient texts can bring to the study of contemporary international relations and political theory. This volume will be of interest to students, scholars, and teachers of political studies, Indian political thought, and philosophy, South Asian studies, political theory, and international relations. **Indian Political**

**OF PERDITION LETTERS FOR CONTRADICTION** Prashant Rai, 2025-02-19 This book is what happens when two chaotic minds decide to let their imaginations run wild and forget to hit the brakes. It's a rollercoaster ride of hilarity, heartbreak, and head-scratching moments that might leave you questioning reality and your taste in authors. Expect the unexpected, quirky characters with questionable life choices, plot twists so sharp they could slice butter, and moments so profound you'll wonder how these two ever wrote them without laughing. Whether it's a deeply emotional monologue or a scene about a pigeon with a vendetta, because why not, this book is a beautiful mess, much like its creators. Basically, this is the literary equivalent of ordering everything off the menu at your favorite dhaba: chaotic, delicious, and totally worth it. Buckle up and welcome to a

*Entrepreneurship in the BRICS* Ndivhuho Tshikovhi, Fulufhelo Netswera, Ravinder Rena, 2024-10-14

Entrepreneurship is a tool of innovation promotion that supports sound economic environments as it stimulates economic growth and development. The BRICS nations i.e. Brazil, Russia, India, China, and South Africa are a group of emerging countries comprising the highest developmental block of the emerging nations. It is imperative to assess the entrepreneurship policies, strategies, and promotional programmes and their implications for, among others, entrepreneurship, funding, economic growth, and employment trends. The COVID-19 pandemic has impacted the entrepreneurship environment and equally steered state funding priorities away from entrepreneurship development support worldwide. This research book assesses the effect that COVID-19 has had on government funding, priority policy interventions, and resultant implications on the entrepreneurship environment, economic growth, and employment with a focus on BRICS. Readers will gain insight into what entrepreneurship looks like in the BRICS context and how it has been affected by COVID-19, indicating how the BRICS nations are likely to move forward to further strengthen entrepreneurship. This edited volume will be of interest to researchers, academics, practitioners, and advanced students in the fields of entrepreneurship, innovation, strategy, international relations, multilateralism, and economic development.
