Stage 2 Mike Spooner,2012-07-26 The activities in this book are designed both to help children to learn and to understand
 math concepts and also to prepare them for taking SATS papers at KS2 There is plenty of research evidence to suggest that
 children are helped in their understanding of math problems if teachers focus on common misconceptions and if children are
 given opportunities for discussion and explanation of their own understanding Children can also feel stigmatized by being
 made to focus on their own errors Mike Spooner has developed activities that present already completed work which
 children then assess correct and discuss in this way they can analyze mistakes without damage to their own self esteem The
 activities are presented in the same format as the SATS papers to give children practice in coping with that format The book
 also contains writing frames that children can use to structure their discussions of math problems *Intermediate 1 Maths*
