MANUAL

It may not accurate always

Time consuming as tester has to check everything manually

Investment is required in terms of hiring testers

No programming efforts required

Testers have to check the user-friendliness of app

Human dependency factor limits it to be named as reliable

Very time consuming & complicated process to do manually

Less expensive, if considered for one-time or short-term goal

AUTOMATED

It is highly accurate as compared to Manual testing

Automation testing is faster as it operates on tools

Investment is required in terms of purchasing tools

Requires programming for creating test cases for proper functioning

Testers don't need to pay attention to UI as they use automated tools

Automation testing is comparatively more reliable

Much easier with the help of tools

Expensive as it requires purchasing tools yet reasonable for long term
